16TH YEAR. NO. 65. EAST LIVERPOOL, O., FRIDAY, AUGUST 24, 1900. TWO CENTS

THE KICKERS ARE PRESENT

Property Owners Are Stating Their Troubles to City Decennial Board of Equalization.

TALK ABOUT YOUR VALUES

Some Property Supposed to Have Increased at a Very Rapid Rate.

APPRAISEMENT IS TOO HIGH

When the members of the city decennial board of equalization arrived at city hall this morning they found a large crowd of property owners waiting for them.

The property owners all had kicks to register with the board and that body wont finish up their work for many weeks if the rush keeps up, and there is every indication that it will.

The present board has no power to reduce the sum total of the appraisement of Appraiser Adam, but can simply adjust by taking off one piece of property and putting it on another. When the state board gets the apprisement the valuation can be lowered in this city, but must be put on another township. Five years ago the valuation of East Liverpool was reduced in this way 10 per cent.

The kicks are still coming in. John H. Greene owns a 60-foot lot at 118 Grant street. His old appraisement was $780 and now it is $1,750, making an increase of $970. He naturally objects.

Mary Greene has a lot 30x40 on Summit lane. She formerly paid taxes on $410, but now if there is no change made she will have to pay taxes on $1,000 ,an increase of $570.

Samuel Barlow has a lot 40x130 at 108 Grant street. His property was valued at $660 in 1890, now it is valued at $1,000, an increase of only $340.

In the case of lot 3273 the old appraisement was $180, now it is $750, an increase of $570. This lot owner will certainly object.

A widow woman who is paying for her property formerly had it appraised at $770. The new appraisement is $1,800, an increase of $1,030. Just think what that means in taxes every year.

Another piece of property in the city was valued at $490, now it is placed at $1,100, an increase of $630. It must be good property that more than doubles in value in 10 years.

These are only a few of the kicks, and when President Kerr and members Smith Fowler, Colonel W. C. Watson, Frank Allebaugh, George Ikirt and George Olnhausen get through with their work they will probably have earned their money.

The only other township in the county that showed a larger per cent of increase than Liverpool was Washington. Liverpool increased 70 per cent and Washington went it a little better, but not much.

The Tongue Broke.

While James Cunningham, driver for the McNicol pottery company, was hauling a load of slag down Union street yesterday, the lock refused to work and the wagon got beyond control.

The outfit went down the hill at a rapid rate and in an attempt to check the speed of the wagon the tongue was broken. It was hauled to a shop nearby, where the damage will be repaired.

THE BITERS BITTEN.

These Practical Jokers Were Sadly Sold and Have the Laugh on Themselves.

Mr. Johnson, the clever gentleman in charge of the construction of the new Potters National bank, has made a host of friends in East Liverpool since his advent among us. Embraced in this number are several practical jokers, young fellows who never lose an opportunity for a joke on their comrades or chums. Johnson had occasion to attend to some business in a far distant city and was away for several days. He was to return the other morning, on the early train, No. 41, and this was the golden opportunity for the jokers. Six or seven of them got together in the night and secured all manner of instruments suitable for a serenade. Two of the number secured a wheelbarrow and mounted a heavy organ thereon and wheeled the same to the depot, the other impromptu musicians arranging themselves about the organ, ready to produce the harmony of melody as Mr. Johnson alighted from the train. But Mr. Johnson failed to materialize, having been detained in the city, and the jokers were about the worst disappointed crew in existence. Two of the number were compelled to man the wheelbarrow and propel that heavy organ from the depot to the head of Broadway, and an interested citizen declares that the air was blue with the maledictions of the couple as they worked their way to their destination. Johnson has since arrived, got onto the sell, and makes it interesting for his chums.

SCRAPED HIS FACE.

Oscar Gordon Stood on His Head When He Tried to Get on a Street Car.

Oscar Gordon, of Calcutta road, in attempting to board a Southside street car on Market street was thrown to the pavement and severely bruised about the head and face.

Gordon states that the car had stopped to permit him to get aboard, but had started with a jerk before he had gotten a firm hold on the handles. He landed squarely on his head, and from the appearance of the right side of his face, undoubtedly remained there until he stopped sliding. Every particle of skin on that side of his face was removed by the fall and his right knee was severely bruised, rendering it impossible for him to work for some time.

WILL CARRY THE COLORS.

An Honor Has Been Conferred Upon Postmaster W. H. Surles of This City.

Postmaster W. H. Surles has been requested to carry the colors for the department of Ohio in the parade at the Chicago encampment.

He will accept the honor and be with the boys at Chicago.

The department of Ohio could not have chosen a man better fitted for the honor than Mr. Surles.

—Mr. and Mrs. Nichol Giffen, Cadiz, O., were visiting at the home of A. W. King, Avondale street, yesterday. The visitors returned home last evening.

CADIZ CROWD WAS A BAD ONE

The Police Had a Whole Lot of Trouble In Preventing Fights Yesterday.

ONLY ONE ARREST WAS MADE

McCoy Insisted on Telling Officer Norris About the Duties of an Officer.

HE PUT UP GOOD SECURITY

The members of the police force who were on duty yesterday afternoon report having had more trouble in handling the Cadiz crowd than on any other occasion this season.

There were several hundred men and boys congregated in the Diamond and the uptown streets, and they were bent on trouble, it didn't matter much what the provocation was or whether there was provocation, the main desire was to get mixed up with some one, and it required the united efforts of the police to prevent serious trouble.

No less than a dozen attempts were made to start fights at different points, the Midway being the favorable stamping ground. One man was thrown bodily from Guthrie's saloon, alighting in the center of the alley. He was not badly hurt, and gathering himself up he made his way to the Diamond, where he caught a car for the Southside.

W. J. McCoy, one of the crowd, had a fair-sized skate on and was going to whip some one in the Midway, when Officer Morris came along and advised the fellow to catch a car and go back to the park. He refused and started in to tell the officer a few things about the duties of a policeman. Morris had already studied the rules and so was not much interested in the talk. He called the patrol and W. J. was taken to jail, where he was provided with quarters for the night.

Not long afterward he becam very homesick and negotiated with the authorities for his release. He gave security and was allowed to go, and in all probability is now in Cadiz.

Chief Thompson took Chongeye Carraher to Lisbon this morning, where he will do time in the county jail.

"Crip" Cain and his girl had just settled themselves on a garbage can in Dew Drop alley to enjoy a fresh growler of beer last night, when Officers Dawson and Gill came along and interrupted the feast.

Cain was arrested on a charge which was filed against him in Wellsville for assaulting a man named Foley there the other day.

He was taken to that place last night and Mayor Dennis disposed of his case today.

LANGLEY PROTESTS.

Says the 10 Per Cent Law Wasn't in Effect When He Contracted a Debt.

John Langley appeared in McCarron's court last evening for the second time to protest against the continuance of the attachment proceedings against him.

Langley was accompanied by his attorney and this time the objection was made on the ground that the debt was contracted before the new 10 per cent attachment law went into effect, and therefore the law would not apply to the case in question.

C. G. Anderson secured judgment in the court of Justice McCarron against Langley for $1 75 for merchandise on July 3, and attachment proceedings were instituted and an endeavor was made to attach the defendant's wages in the hands of the Vodrey Pottery company.

It was afterward learned that Langley wasn't in the employ of the Vodreys and the case was dismissed. An other action was brought a second time and papers issued in aid of execution against Thomas Wedgwood, for whom defendant was found to be working, and now Langley and his attorney are endeavoring to again stop proceedings.

Justice McCarron has taken the matter under consideration and will render a decision on Monday.

KNOWLES SUES.

WANTS THE CITY TO PAY HIM $1,200.

Says the Change of Grade on Avondale Street Damaged His Property to That Extent.

Lisbon, Aug. 24.—(Special.)—George Knowles has sued for a judgment against the city of East Liverpool in the sum of $1,200.

Mr. Knowles claims he has been damaged by reason of the change of the grade on Avondale street, which was done in 1899 by the city.

He owns three lots fronting on the street on which he has improved houses and he says the change of the grade, which was regularly established in 1891, has cut down the street in front of his property to a depth of 10 feet, rendering the ingress and egress to his lots both difficult and dangerous.

He says he has been compelled to erect a retaining wall and reconstruct all of his porches, and that even then the value of his property has been lessened. His claim he presented to the clerk of the city and payment was refused.

MODIFIED AN ORDER.

Administrator of the Estate of Cynthia Bradshaw Permitted to Retain $500.

Lisbon, Aug. 24.—(Special.)—In the estate of the late Cynthia Bradshaw, of East Liverpool, Judge Boone modified the order of distribution of the proceeds of the sale and authorized the administrator to retain $500 for the purpose of indemnifying him against any expense of litigation that may accrue in collecting certain claims. The administrator was ordered to distribute $7,956 25, and will now distribute $500 less.

HE WAS FOUND.

Thomas Shaw Confessed Judgment Last Evening in That Attachment Case.

The lost has been found. Constable Powell made the discovery last evening, and the papers in the attachment suit against Thomas Shaw for a board bill of $15 70 were served on the young man.

The defendant confessed judgment and the case will therefore not come to trial.

Sold a Horse.

Ed Larkins sold a fine driving horse to Beaver Falls parties yesterday. The horse took first prize at the Hooks-town fair.

UNFORTUNATE MARRIAGES

One Thousand More Divorces Were Granted In Ohio This Year Than Last.

SECRETARY KINNEY'S FIGURES

Taken From the Reports of the Different Counties Make This Showing.

THE CAUSE IS GIVEN IN EACH

Secretary of State Kinney has received and tabulated reports from all the counties of the state upon divorce statistics.

The table shows 8,457 cases pending as compared with a total for the preceding year of 7,445, an increase of more than 1,000.

The number of divorces granted during the past year was 3,878, as compared with 3,217 for the preceding year, an increase of 661.

The summary for the past year is as follows:

Suits pending July 1, 1899, 5,219; number brought during the year ending June 30, 1900, 3,238; total number of suits, 8,457; divorces granted, 3,878; divorces refused and suits dismissed, 1,060; suits pending July 1, 1900, 3,280.

Under cause of adultery there were granted to the husband, 285; refused husband, 91; granted wife, 220; refused wife, 64.

Cause absence and neglect, husband, 595; refused husband, 195; granted wife, 1,439; refused wife, 235.

Cause cruelty, husband, 91; refused husband, 58; granted wife, 715; refused wife, 240.

Cause drunkenness, granted husband, 17; refused husband, 20; granted wife, 396; refused wife, 98.

Cause fraud, granted husband, 11; refused husband, 4; granted wife, 10; refused wife, 3.

All other causes, granted husband, 20; refused husband, 15; granted wife, 79; refused wife, 37.

Until the year 1892 the courts of common pleas only had power to grant decrees of divorce, but since that year the legislature has given the power to the probate judges of different counties, until at present the probate judges of Allen, Coshocton, Defiance, Fayette, Henry, Licking, Madison, Perry and Richland counties are authorized to grant divorces.

Married Last July.

The announcement has just been made of the marriage of Joseph Duke, a presser at the Goodwin pottery, and Miss Mame Reece, daughter of Mr. and Mrs. John Reece, of Lisbon street, which took place July 3 at Ripley, New York, the ceremony being performed by Rev. Hildren, pastor of the M. E. church at that place.

Mr. and Mrs. Duke are well known in this city. They have gone to housekeeping on May street.

Funeral This Morning.

The funeral of the 17-year-old daughter of Mr. and Mrs. George Beaver, who died yesterday morning, took place this morning at 10 o'clock. Interment was made in Spring Grove cemetery.

HE PUT UP GOOD SECURITY

The members of the police force who were on duty yesterday afternoon report having had more trouble in handling the Cadiz crowd than on any other occasion this season.

There were several hundred men and boys congregated in the Diamond and the uptown streets, and they were bent on trouble, it didn't matter much what the provocation was or whether there was provocation, the main desire was to get mixed up with some one, and it required the united efforts of the police to prevent serious trouble.

No less than a dozen attempts were made to start fights at different points, the Midway being the favorable stamping ground. One man was thrown bodily from Guthrie's saloon, alighting in the center of the alley. He was not badly hurt, and gathering himself up he made his way to the Diamond, where he caught a car for the Southside.

W. J. McCoy, one of the crowd, had a fair-sized skate on and was going to whip some one in the Midway, when Officer Morris came along and advised the fellow to catch a car and go back to the park. He refused and started in to tell the officer a few things about the duties of a policeman. Morris had already studied the rules and so was not much interested in the talk. He called the patrol and W. J. was taken to jail, where he was provided with quarters for the night.

Not long afterward he becam very homesick and negotiated with the authorities for his release. He gave security and was allowed to go, and in all probability is now in Cadiz.

Chief Thompson took Chongeye Carraher to Lisbon this morning, where he will do time in the county jail.

"Crip" Cain and his girl had just settled themselves on a garbage can in Dew Drop alley to enjoy a fresh growler of beer last night, when Officers Dawson and Gill came along and interrupted the feast.

Cain was arrested on a charge which was filed against him in Wellsville for assaulting a man named Foley there the other day.

He was taken to that place last night and Mayor Dennis disposed of his case today.

LANGLEY PROTESTS.

Says the 10 Per Cent Law Wasn't in Effect When He Contracted a Debt.

John Langley appeared in McCarron's court last evening for the second time to protest against the continuance of the attachment proceedings against him.

Langley was accompanied by his attorney and this time the objection was made on the ground that the debt was contracted before the new 10 per cent attachment law went into effect, and therefore the law would not apply to the case in question.

C. G. Anderson secured judgment in the court of Justice McCarron against Langley for $1 75 for merchandise on July 3, and attachment proceedings were instituted and an endeavor was made to attach the defendant's wages in the hands of the Vodrey Pottery company.

It was afterward learned that Langley wasn't in the employ of the Vodreys and the case was dismissed. An other action was brought a second time and papers issued in aid of execution against Thomas Wedgwood, for whom defendant was found to be working, and now Langley and his attorney are endeavoring to again stop proceedings.

Justice McCarron has taken the matter under consideration and will render a decision on Monday.

KNOWLES SUES.

WANTS THE CITY TO PAY HIM $1,200.

Says the Change of Grade on Avondale Street Damaged His Property to That Extent.

Lisbon, Aug. 24.—(Special.)—George Knowles has sued for a judgment against the city of East Liverpool in the sum of $1,200.

Mr. Knowles claims he has been damaged by reason of the change of the grade on Avondale street, which was done in 1899 by the city.

He owns three lots fronting on the street on which he has improved houses and he says the change of the grade, which was regularly established in 1891, has cut down the street in front of his property to a depth of 10 feet, rendering the ingress and egress to his lots both difficult and dangerous.

He says he has been compelled to erect a retaining wall and reconstruct all of his porches, and that even then the value of his property has been lessened. His claim he presented to the clerk of the city and payment was refused.

MODIFIED AN ORDER.

Administrator of the Estate of Cynthia Bradshaw Permitted to Retain $500.

Lisbon, Aug. 24.—(Special.)—In the estate of the late Cynthia Bradshaw, of East Liverpool, Judge Boone modified the order of distribution of the proceeds of the sale and authorized the administrator to retain $500 for the purpose of indemnifying him against any expense of litigation that may accrue in collecting certain claims. The administrator was ordered to distribute $7,956 25, and will now distribute $500 less.

HE WAS FOUND.

Thomas Shaw Confessed Judgment Last Evening in That Attachment Case.

The lost has been found. Constable Powell made the discovery last evening, and the papers in the attachment suit against Thomas Shaw for a board bill of $15 70 were served on the young man.

The defendant confessed judgment and the case will therefore not come to trial.

Sold a Horse.

Ed Larkins sold a fine driving horse to Beaver Falls parties yesterday. The horse took first prize at the Hookstown fair.

UNFORTUNATE MARRIAGES

One Thousand More Divorces Were Granted In Ohio This Year Than Last.

SECRETARY KINNEY'S FIGURES

Taken From the Reports of the Different Counties Make This Showing.

THE CAUSE IS GIVEN IN EACH

Secretary of State Kinney has received and tabulated reports from all the counties of the state upon divorce statistics.

The table shows 8,457 cases pending as compared with a total for the preceding year of 7,445, an increase of more than 1,000.

The number of divorces granted during the past year was 3,878, as compared with 3,217 for the preceding year, an increase of 661.

The summary for the past year is as follows:

Suits pending July 1, 1899, 5,219; number brought during the year ending June 30, 1900, 3,238; total number of suits, 8,457; divorces granted, 3,878; divorces refused and suits dismissed, 1,060; suits pending July 1, 1900, 3,280.

Under cause of adultery there were granted to the husband, 285; refused husband, 91; granted wife, 220; refused wife, 64.

Cause absence and neglect, husband, 595; refused husband, 195; granted wife, 1,439; refused wife, 235.

Cause cruelty, husband, 91; refused husband, 58; granted wife, 715; refused wife, 240.

Cause drunkenness, granted husband, 17; refused husband, 20; granted wife, 396; refused wife, 98.

Cause fraud, granted husband, 11; refused husband, 4; granted wife, 10; refused wife, 3.

All other causes, granted husband, 20; refused husband, 15; granted wife, 79; refused wife, 37.

Until the year 1892 the courts of common pleas only had power to grant decrees of divorce, but since that year the legislature has given the power to the probate judges of different counties, until at present the probate judges of Allen, Coshocton, Defiance, Fayette, Henry, Licking, Madison, Perry and Richland counties are authorized to grant divorces.

Married Last July.

The announcement has just been made of the marriage of Joseph Duke, a presser at the Goodwin pottery, and Miss Mame Reece, daughter of Mr. and Mrs. John Reece, of Lisbon street, which took place July 3 at Ripley, New York, the ceremony being performed by Rev. Hildren, pastor of the M. E. church at that place.

Mr. and Mrs. Duke are well known in this city. They have gone to housekeeping on May street.

Funeral This Morning.

The funeral of the 17-year-old daughter of Mr. and Mrs. George Beaver, who died yesterday morning, took place this morning at 10 o'clock. Interment was made in Spring Grove cemetery.

TO SAVE THE CONSTITUTION

A Massachusetts Society Has Taken Steps to Preserve the Famous Old Ship.

WRITES TO MAYOR DAVIDSON

And Wants the People of East Liverpool to Donate to the Cause.

LETTER GIVEN IN FULL

Mayor Davidson yesterday received the following, which will doubtless be of interest to a great many people in this city:

Boston, July 30, 1900.

His Honor, the Mayor, East Liverpool, Ohio.

Dear Sir—I have the honor to present to your notice and to ask your favorable consideration for the work which the Massachusetts State society, United States Daughters of the War of 1812, has undertaken, to raise the fund for the rehabilitation of the famous old U. S. frigate Constitution.

A brief statement of how this matter has been brought about may be of interest to you. For many years this famous old frigate, so dear to the hearts of the American people, had been lying at the Portsmouth navy yard, gradually going to decay.

At a patriotic meeting in Faneuil hall, Boston, on February 22, 1897, Mrs. Nelson V. Titus, the president of the Massachusetts State society, United States Daughters of 1812, offered a resolution that the old ship should be brought to Boston to celebrate the 100th anniversary of her birth. The petition was presented to the secretary of the navy, who ordered the ship brought to Boston, and the celebration on October 21, 1897, awakened much interest for her preservation. The president of the society then presented a petition to congress, urging that an appropriation should be made to rebuild this famous man-of-war. This was duly presented to congress by Hon. Henry Cabot Lodge, and was referred to the committee on appropriations, who voted it "inexpedient." The matter then rested a year. The society was not disheartened, however, and with the cordial cooperation of the secretary of the navy, the necessary authority to rebuild the ship has now been obtained from congress, as shown by the following:

On December 4, 1899, the following recommendation was sent to the committee on naval affairs, House of Representatives, by the Hon. John D. Long, secretary of the navy:

"Navy Department,

"Washington, D. C., Dec. 4, 1899.

Sir—The Massachusetts State society, United States Daughters of 1812, has informed the department that it desires to restore the old frigate Constitution to a serviceable condition, in order that she may be again placed in commission and used as a training ship, or in such manner as may be deemed best by the secretary of the navy, the cost of such restoration to be defrayed by popular subscription, and the work to be done at the navy yard, Boston, Mass., and carried on and completed to the satisfaction of the department. The society has also, in pursuance of this object, requested the department to recommend the passage of an act by the congress granting the necessary authority in the premises. The Constitution as she exists today is a relic of the glory of the navy in its early days, and the fact that the memory of her prowess is still cherished among the people is a gratifying evidence of patriotism that should be encouraged. The restoration of this old man-of war for the government by voluntary contribution from the people, under the auspices of this society, would be an object lesson of great value to the nation.

"I have the honor, therefore, considering also the serviceability to the navy of the ship should she be restored, to recommend the early passage of an act authorizing her rehabilitation in the manner proposed, providing, however, that the work shall be done under the supervision of and as directed by the department.

"Very respectfully,

"JOHN D. LONG,

"Secretary.

"To the Chairman of the Committee on Naval Affairs, United States Senate."

In the house of representatives on February 8, 1900, the committee on naval affairs reported as follows, the report being read by Mr. Butler, of Pennsylvania:

"The committee on naval affairs, to whom was referred the bill (H. R. 3718) to authorize the secretary of the navy to place the frigate Constitution in the same condition as regards her hull and rigging as she was when in activeservice beg leave to submit the following report:

"The frigate Constitution, better known as 'Old Ironsides,' is now moored to the wharf at the Boston navy yard, where she has been since her removal from Portsmouth, N. H., in 1897. Her hull is protected from the weather by a roof, but dry rot has attacked her once staunch timbers and they are fast going to decay. The achievements of Old Ironsides during the war of 1812, filling as they do so proud and glorious a page of American history, have endeared this grand old ship to our people and enshrined her in the affections of a loyal and patriotic nation. The Massachusetts State society, United States Daughters of 1812, solicit the privilege of furnishing a sufficient sum of money to defray the entire cost of placing the Constitution in the same condition as regards her hull and rigging as she was when in active service. It is more than a work of patriotism with these ladies—it is a labor of love and reverence, and they feel that they have a legitimate claim to the honor of carrying it out, because many of them are direct descendants of the men who helped build the ship, fought upon her decks ,and commanded her when she gained her epoch-making victories. The government will be at no expense whatever under the plan proposed for the restoration and preservation of this famous vessel; the patriotic impulses of our people will be stimulated, and a striking and curious object lesson of the development and growth of the nation will be handed down to future generations in the form of the, to us, quaint old battleship which first made our nation famous on the seas. The secretary of the navy, having urged the speedy consideration and passage of this bill, and in view of the above facts, and the further fact that the Massachusetts State society, United States Daughters of 1812, in raising the funds to defray the expense of such refitting of the Constitution, will present to the public an object lesson in patriotic devotion of great value, your committee recommend that the said bill do pass."

Accordingly, the following bill was passed by both houses of congress and approved by President McKinley on February 14, 1900:

"An Act for the Preservation of the Frigate Constitution.

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that the secretary of the navy is hereby authorized to place the frigate Constitution, now lying at the Boston navy yard, as near as may be consistent with her preservation, in the same condition as regards her hull and rigging as she was when in active service; provided, that before beginning on such work a sufficient sum of money to complete such work shall be raised through the agency of the Massachusetts State society, United States Daughters of 1812, and placed at his disposal for the purpose.

"Approved February 14, 1900."

Having now received the necessary permission from congress to raise the fund for the rebuilding of the ship, this society desires to ask the cordial cooperation of every state in the union to unite in raising the money needed to rebuild this historic man-of-war. According to the estimate submitted to the society by the bureau of construction and repair at Washington, the amount will be $400,000.

While this at first seems a large sum, it is not so much when divided among the different states of the union. The preservation of this famous vessel is a matter of national interest, and the purpose of this letter is to ask your honor to present this matter at once to the proper authorities in your city, and if you should think it desirable, to suggest to your leading newspaper that a popular subscription fund should be started. The society would be glad to be advised if we may look for your cooperation in this patriotic work. This matter has been already presented to the governor of your state, asking him to present it to the state board of education. It has been suggested that October 21 next be made "Constitution day" in every public school throughout the land, when every child may contribute something for the rebuilding of the ship. Messrs. Kiddor, Peabody & Co., bankers, Boston, have consented to act as treasurers of the fund. I feel sure we may count on the aid of the people of your city in this great and patriotic work to preserve and hand down to posterity this famous old ship, whose guns in the war of 1812, in the space of 15 minutes' time, raised the United States from a second-class to a first-class power and established the independence of the United States forever.

Hoping that this patriotic work will receive your favorable consideration, and that we may have a liberal contribution from your city, which will be duly acknowledged in the press.

Very respectfully yours,

MRS. NELSON V, TITUS,

President Massachusetts State Society, United States Daughters of 1812.

Boston, July 30, 1900.

His Honor, the Mayor, East Liverpool, Ohio.

Dear Sir—I have the honor to present to your notice and to ask your favorable consideration for the work which the Massachusetts State society, United States Daughters of the War of 1812, has undertaken, to raise the fund for the rehabilitation of the famous old U. S. frigate Constitution.

A brief statement of how this matter has been brought about may be of interest to you. For many years this famous old frigate, so dear to the hearts of the American people, had been lying at the Portsmouth navy yard, gradually going to decay.

At a patriotic meeting in Faneuil hall, Boston, on February 22, 1897, Mrs. Nelson V. Titus, the president of the Massachusetts State society, United States Daughters of 1812, offered a resolution that the old ship should be brought to Boston to celebrate the 100th anniversary of her birth. The petition was presented to the secretary of the navy, who ordered the ship brought to Boston, and the celebration on October 21, 1897, awakened much interest for her preservation. The president of the society then presented a petition to congress, urging that an appropriation should be made to rebuild this famous man-of-war. This was duly presented to congress by Hon. Henry Cabot Lodge, and was referred to the committee on appropriations, who voted it "inexpedient." The matter then rested a year. The society was not disheartened, however, and with the cordial cooperation of the secretary of the navy, the necessary authority to rebuild the ship has now been obtained from congress, as shown by the following:

On December 4, 1899, the following recommendation was sent to the committee on naval affairs, House of Representatives, by the Hon. John D. Long, secretary of the navy:

"Navy Department,

"Washington, D. C., Dec. 4, 1899.

Sir—The Massachusetts State society, United States Daughters of 1812, has informed the department that it desires to restore the old frigate Constitution to a serviceable condition, in order that she may be again placed in commission and used as a training ship, or in such manner as may be deemed best by the secretary of the navy, the cost of such restoration to be defrayed by popular subscription, and the work to be done at the navy yard, Boston, Mass., and carried on and completed to the satisfaction of the department. The society has also, in pursuance of this object, requested the department to recommend the passage of an act by the congress granting the necessary authority in the premises. The Constitution as she exists today is a relic of the glory of the navy in its early days, and the fact that the memory of her prowess is still cherished among the people is a gratifying evidence of patriotism that should be encouraged. The restoration of this old man-of war for the government by voluntary contribution from the people, under the auspices of this society, would be an object lesson of great value to the nation.

"I have the honor, therefore, considering also the serviceability to the navy of the ship should she be restored, to recommend the early passage of an act authorizing her rehabilitation in the manner proposed, providing, however, that the work shall be done under the supervision of and as directed by the department.

"Very respectfully,

"JOHN D. LONG,

"Secretary.

"To the Chairman of the Committee on Naval Affairs, United States Senate."

In the house of representatives on February 8, 1900, the committee on naval affairs reported as follows, the report being read by Mr. Butler, of Pennsylvania:

"The committee on naval affairs, to whom was referred the bill (H. R. 3718) to authorize the secretary of the navy to place the frigate Constitution in the same condition as regards her hull and rigging as she was when in activeservice beg leave to submit the following report:

"The frigate Constitution, better known as 'Old Ironsides,' is now moored to the wharf at the Boston navy yard, where she has been since her removal from Portsmouth, N. H., in 1897. Her hull is protected from the weather by a roof, but dry rot has attacked her once staunch timbers and they are fast going to decay. The achievements of Old Ironsides during the war of 1812, filling as they do so proud and glorious a page of American history, have endeared this grand old ship to our people and enshrined her in the affections of a loyal and patriotic nation. The Massachusetts State society, United States Daughters of 1812, solicit the privilege of furnishing a sufficient sum of money to defray the entire cost of placing the Constitution in the same condition as regards her hull and rigging as she was when in active service. It is more than a work of patriotism with these ladies—it is a labor of love and reverence, and they feel that they have a legitimate claim to the honor of carrying it out, because many of them are direct descendants of the men who helped build the ship, fought upon her decks ,and commanded her when she gained her epoch-making victories. The government will be at no expense whatever under the plan proposed for the restoration and preservation of this famous vessel; the patriotic impulses of our people will be stimulated, and a striking and curious object lesson of the development and growth of the nation will be handed down to future generations in the form of the, to us, quaint old battleship which first made our nation famous on the seas. The secretary of the navy, having urged the speedy consideration and passage of this bill, and in view of the above facts, and the further fact that the Massachusetts State society, United States Daughters of 1812, in raising the funds to defray the expense of such refitting of the Constitution, will present to the public an object lesson in patriotic devotion of great value, your committee recommend that the said bill do pass."

Accordingly, the following bill was passed by both houses of congress and approved by President McKinley on February 14, 1900:

"An Act for the Preservation of the Frigate Constitution.

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that the secretary of the navy is hereby authorized to place the frigate Constitution, now lying at the Boston navy yard, as near as may be consistent with her preservation, in the same condition as regards her hull and rigging as she was when in active service; provided, that before beginning on such work a sufficient sum of money to complete such work shall be raised through the agency of the Massachusetts State society, United States Daughters of 1812, and placed at his disposal for the purpose.

"Approved February 14, 1900."

Having now received the necessary permission from congress to raise the fund for the rebuilding of the ship, this society desires to ask the cordial cooperation of every state in the union to unite in raising the money needed to rebuild this historic man-of-war. According to the estimate submitted to the society by the bureau of construction and repair at Washington, the amount will be $400,000.

While this at first seems a large sum, it is not so much when divided among the different states of the union. The preservation of this famous vessel is a matter of national interest, and the purpose of this letter is to ask your honor to present this matter at once to the proper authorities in your city, and if you should think it desirable, to suggest to your leading newspaper that a popular subscription fund should be started. The society would be glad to be advised if we may look for your cooperation in this patriotic work. This matter has been already presented to the governor of your state, asking him to present it to the state board of education. It has been suggested that October 21 next be made "Constitution day" in every public school throughout the land, when every child may contribute something for the rebuilding of the ship. Messrs. Kiddor, Peabody & Co., bankers, Boston, have consented to act as treasurers of the fund. I feel sure we may count on the aid of the people of your city in this great and patriotic work to preserve and hand down to posterity this famous old ship, whose guns in the war of 1812, in the space of 15 minutes' time, raised the United States from a second-class to a first-class power and established the independence of the United States forever.

Hoping that this patriotic work will receive your favorable consideration, and that we may have a liberal contribution from your city, which will be duly acknowledged in the press.

Very respectfully yours,

MRS. NELSON V, TITUS,

President Massachusetts State Society, United States Daughters of 1812.

HOOKSTOWN FAIR IS OVER

Fully 8,000 People Attended the Fair This Year Which Was Larger and Better

THAN IN PREVIOUS YEARS

The Fair Is a Great Event and Hancock and Beaver County People Always Attend.

THE RACING WAS GOOD

The Hookstown fair for 1900 closed last evening, and the total attendance for the three days was estimated at 8,000 people.

Seventeen years ago the Mill Creek Valley Fair association was organized and held their first fair, which was principally a stock exhibition. The affair proved a success from the very start, and it was not long until a race track was built, and now the association has the best third-mile track in the state of Pennsylvania.

If you want to be in the push in Beaver and Hancock counties you must go to the Hookstown fair. The fair partakes of the nature of a gigantic picnic and every year the country people for miles around gather to greet their friends and renew old acquaintanceships. People from Beaver go by the hundreds and East Liverpool citizens are not far behind.

There is the merry-go-round, floral hall, cane games, exhibits. The lemonade man is seen on every side, while the racing is an important feature. It is the ideal country fair and will always be a success as long as the old fashioned idea holds sway.

Pesterday 6,000 people entered the gates and every available hitching place in the fair ground, and on the roads for at least a mile was taken. Still there was room for everybody within the grounds and it is seldom a more happy crowd is seen. Everybody was enjoying themselves.

The fair this year was the best in the history of the association. The attendance was larger, the exhibits finer and the racing better than ever before.

The country fair may be dropping out of sight, but the Hookstown fair will always be held and the event for which the Beaver and Hancock county people count on each year will come off as usual.

The association next year will endeavor to make the fair still more of a success.

TALKING MACHINE.

She Resides on College Street—Talks by Note, Talks by Air—Boozes Boldly.

She's a talker from Tattletown. Report has it that she talked her mother-in-law to death and cross-questioned a book agent so persistently and pertinaciously that he fell over in a dead faint on the steps of her front doorway. The census taker attempted to interview her a short time since, and met with such a reception that he threatened to throw up his job rather than tackle her again. The talking machine is fond of booze, and she occasionally indulges in a regular spree, much to the annoyance of her hubbie, who desires to do all the boozing of the household. The lord and master of the domicile attempted to call his partner to account the other night, after she had put herself outside of about half a pint of Jersey lightning, when she gave him such an awful tongue lashing that he was afraid to go into his home, and secured a room at the hotel that night. The machine has since openly boasted that she rules the roost and that her hubbie don't dare to say "boo" to her. The neighbors enjoy the fun and are anxiously looking for a repetition of the seance. An eye witness to one of her sprees says that on one occasion she caught her hubbie by either shoulder, lifted him from the ground bodily and shook him as a terrier does a rodent—shook him until his teeth rattled like castanets.

CADIZ WON.

The Local Ball Players Lost the Game Yesterday By Only One Run.

The ball game yesterday between the Cadiz and Liverpool clubs at Rock Springs was won by Cadiz by a score of 6 to 5.

The game was one of the speediest ever played on local grounds, and the local players only made one error; Barker, who was playing short, fell down on a hard chance.

The Cadiz team was composed principally of minor leaguers, the catcher, left fielder and first baseman coming from the Indiana state league, while the pitcher is an ex-Fort Wayne man. In addition to this they had two Scio players.

Doc Howard umpired the game and he did it well, but Cadiz kicked on everything and wanted to fight at the drop of the bat. Three or four times it looked as though the game would end in a row, but things calmed down and the contest went on.

The batteries were Vastbinder and Edwards; Chambers and Gibson.

Pesterday 6,000 people entered the gates and every available hitching place in the fair ground, and on the roads for at least a mile was taken. Still there was room for everybody within the grounds and it is seldom a more happy crowd is seen. Everybody was enjoying themselves.

The fair this year was the best in the history of the association. The attendance was larger, the exhibits finer and the racing better than ever before.

The country fair may be dropping out of sight, but the Hookstown fair will always be held and the event for which the Beaver and Hancock county people count on each year will come off as usual.

The association next year will endeavor to make the fair still more of a success.

TALKING MACHINE.

She Resides on College Street—Talks by Note, Talks by Air—Boozes Boldly.

She's a talker from Tattletown. Report has it that she talked her mother-in-law to death and cross-questioned a book agent so persistently and pertinaciously that he fell over in a dead faint on the steps of her front doorway. The census taker attempted to interview her a short time since, and met with such a reception that he threatened to throw up his job rather than tackle her again. The talking machine is fond of booze, and she occasionally indulges in a regular spree, much to the annoyance of her hubbie, who desires to do all the boozing of the household. The lord and master of the domicile attempted to call his partner to account the other night, after she had put herself outside of about half a pint of Jersey lightning, when she gave him such an awful tongue lashing that he was afraid to go into his home, and secured a room at the hotel that night. The machine has since openly boasted that she rules the roost and that her hubbie don't dare to say "boo" to her. The neighbors enjoy the fun and are anxiously looking for a repetition of the seance. An eye witness to one of her sprees says that on one occasion she caught her hubbie by either shoulder, lifted him from the ground bodily and shook him as a terrier does a rodent—shook him until his teeth rattled like castanets.

CADIZ WON.

The Local Ball Players Lost the Game Yesterday By Only One Run.

The ball game yesterday between the Cadiz and Liverpool clubs at Rock Springs was won by Cadiz by a score of 6 to 5.

The game was one of the speediest ever played on local grounds, and the local players only made one error; Barker, who was playing short, fell down on a hard chance.

The Cadiz team was composed principally of minor leaguers, the catcher, left fielder and first baseman coming from the Indiana state league, while the pitcher is an ex-Fort Wayne man. In addition to this they had two Scio players.

Doc Howard umpired the game and he did it well, but Cadiz kicked on everything and wanted to fight at the drop of the bat. Three or four times it looked as though the game would end in a row, but things calmed down and the contest went on.

The batteries were Vastbinder and Edwards; Chambers and Gibson.

OFFICIAL PAPER OF THE CITY

FRIDAY, AUGUST 24, 1900.

This Date In History—Aug. 24.

Hook.

1481—Alfonso V of Portugal died.
1572—Masacre of St. Bartholomew and murder of Admiral de Coligni.
1682—John, duke of Lauderdale, minister of Charles II, beheaded.
1750—Letitia Kamolini, mother of Napoleon Bonaparte, born; died 1836.
1814—Washington city captured by the British and the capitol and other public buildings burned.
1839—William Walter Phelps, United States minister to Berlin and Vienna, born in New York city; died 1894.
1841—Theodore Hook, the erratic humorist, died; born 1788.
1844—American emigrant ship Ocean Monarch burned in the English channel; 178 lives lost.
1855—The famous Bartholomew fair, or London saturnalia, suppressed after flourishing over 700 years.

FIND THE LEADERS.

It should not be a difficult task to find the leaders who led the Akron mob. Once found, hot punishment should follow.

GATLING GUNS.

Ben Butler said, at the time of the New York city riots, that the "proper thing to use in persuading a mob was a gatling gun, distributing its arguments where they would do the most good." And Ben was right.

WHO KILLED THE CHILDREN?

Who killed the children murdered in Akron, Ohio, the other day? Mob law did the cruel deed. The cruel, senseless, murderous mob acted like brutes and unlike human beings. And all this in our fair state of Ohio.

WHO WILL SETTLE?

Who will pay the bill for the looting of property in Akron? The taxpayers of the county, of course. The story of the riots in Pittsburg is still fresh in the minds of the people of the nation. Allegheny county paid millions for her failure to enforce law and order.

AN INFAMOUS DEED.

If Peck, the negro, perpetrated the infamous crime, with which he is charged, no punishment could be too hot for such a devil in human guise; but the unreasoning mob did not murder or hang or torture Peck. They murdered innocent victims, dynamited and looted property and acted as do hoodlums and anarchists.

KILL OR BE KILLED.

Kill the liquor traffic in this great nation, or it will kill the nation. Statistics, undeniable facts and figures, will prove the truth of this assertion. It will require an overwhelming wave of right and reformation to wipe out the curse—this disgrace to our great republic. Under God's blessing, however, the work can be accomplished. Are you willing to help?

ACCURSED DRINK.

Read the press reports of the awful shame to Ohio in the streets of Akron:

"To the free flowing of liquor is ascribed the frenzy which culminated in the destruction of over $250,000 in property, the loss of one life and the wounding of a score or more people who sought only to preserve peace or were mere spectators of the awful affair."

The accursed strong drink. When will this nation fully arouse itself and recognize the enormity of the sin of the licensed liquor traffic?

D. M. Ogilvie & Co.

BRYAN'S BLUNDERS.

William Jennings Bryan declares that, in case he is elected president, he will grant the Filipinos their independence and guard them against molestation on the part of other nations. This would mean the withdrawal of our army from the Philippine islands; and, further, would compel the United States government to maintain in Philippine waters an immense fleet or navy, sufficient to deter and prevent Germany, France, Great Britain, Japan, Russia and all other nations from interfering with the Filipinos or the Philippines. Peculiar retrenchment, to say the least, and not much of a guarantee for the preservation of peace. International complications would ensue, and troubles and expense untold would be forced upon this nation. Bryan says:

"For three-quarters of a century the Monroe doctrine has been a shield to neighboring republics, and yet it has imposed no pecuniary burden upon us."

The republics designated are on the same hemisphere with us. The other nations are across the ocean. Bryan proposes that we shall cross the ocean to the hemisphere where the other nations are at home, and where we have no footing whatever after the recognition of the Philippine independence; that we shall undertake to uphold a republic there against all neighboring nations. And to put this revolutionary policy in play the earlier, Bryan would call an extraordinary session of congress next March. Can the thoughtful citizen measure the disturbing influence of congress in session to proclaim such a world policy as Bryan pledges himself to inaugurate? Agitation, disorder and a disturbance of conditions generally might be expected, and the shadow of this contemplated session of congress would overcast American prosperity on the very day following the show of enough electoral votes to make Bryan president. Bryan's blunders would extend the Monroe doctrine to the continent of Asia. Bryan's blunders would ruin this nation.

BRYAN'S BLUNDERS.

William Jennings Bryan declares that, in case he is elected president, he will grant the Filipinos their independence and guard them against molestation on the part of other nations. This would mean the withdrawal of our army from the Philippine islands; and, further, would compel the United States government to maintain in Philippine waters an immense fleet or navy, sufficient to deter and prevent Germany, France, Great Britain, Japan, Russia and all other nations from interfering with the Filipinos or the Philippines. Peculiar retrenchment, to say the least, and not much of a guarantee for the preservation of peace. International complications would ensue, and troubles and expense untold would be forced upon this nation. Bryan says:

"For three-quarters of a century the Monroe doctrine has been a shield to neighboring republics, and yet it has imposed no pecuniary burden upon us."

The republics designated are on the same hemisphere with us. The other nations are across the ocean. Bryan proposes that we shall cross the ocean to the hemisphere where the other nations are at home, and where we have no footing whatever after the recognition of the Philippine independence; that we shall undertake to uphold a republic there against all neighboring nations. And to put this revolutionary policy in play the earlier, Bryan would call an extraordinary session of congress next March. Can the thoughtful citizen measure the disturbing influence of congress in session to proclaim such a world policy as Bryan pledges himself to inaugurate? Agitation, disorder and a disturbance of conditions generally might be expected, and the shadow of this contemplated session of congress would overcast American prosperity on the very day following the show of enough electoral votes to make Bryan president. Bryan's blunders would extend the Monroe doctrine to the continent of Asia. Bryan's blunders would ruin this nation.

CHEERFUL GIVERS.

Thank God That We Have Very Many of This Class in East Liverpool.

The writer needed $7 this morning, in order to meet a demand made by two charitable ladies of this city, ladies who have a very sad case on their hands. We called on seven different business men, and not one of the number refused our plea for a cart wheel, each man visited giving gladly, one member of council saying:

"In any cases of emergency like unto this, don't fail to call on me."

One gentleman had started for the News Review office to hand in a dollar for the India famine fund. Taking our advice, he diverted his dollar to the emergency case at home. When we reported back to the office with the seven dollars needed, we discovered that a lady had called in and contributed one dollar to the home case, and so the dollar contributed by the gentleman designated went into the India famine fund and was sent off this afternoon.

Seated at the office door a few minutes later, reading proof, an old soldier, gallant and true, loving and kind, pushed open the screen door, dropped a five-dollar bill in the writer's hand and said:

"For the famine fund."

God bless and prosper him; and bless and prosper every one of the above designated cheerful givers. Don't you want a share of the Master's blessings, oh ye many cheerful givers of East Liverpool?

Interesting Statistics.

The following statistics will be of interest to people who think the world is growing better:

In 1850 one person out of every 3,542 was in prison; in 1899 one out of every 855, and in 1890 one out of every 757, and the crimes represent homicide, theft, counterfeiting almost entirely.

In 1894 there were 7,749 homicides; in 1895, 8,000; in 1896, 10,000; in 1899, about 12,000.

From 1893 to 1898 there were 742 suicides and 150 murders in San Francisco. It is estimated that there are over 25,000 suicides in this nation annually.

Prostitution has increased 50 per cent per capita during the past ten years. It is estimated that there are at present over 600,000 in the United States.

Three thousand babies are abandoned by their mothers in New York City annually.

Rum shops increase at a fearful rate, there being in 1886, 161,483 separate places and 433,274 persons empliyed. Nearly all of these saloons are the recruiting shops for political corruption, which increases with each election.

In 1850 we consumed 1,000,000 kegs of beer. In 1890, with a population only two and one-half times greater, we consumed 37,000,000 barrels. In 1889 we consumed 506,076,400 gallons of liquors and wines. Seven years later we had increased the consumption to 1,189,379,448 gallons.

Deaths from alcoholism have increased 15 per cent in the past 25 years.—Exchange.

Drop the mixture by dessertspoonfuls in the boiling fat and fry until a nice brown. Drain on brown paper and serve.

A LIVE COAL TRICK.

Teaches Natural Law, Yet Has All the Appearance of Magic.

No one would suppose that it is possible to hold a glowing coal on a piece of linen or cotton without burning the cloth, but that such can be done is easy for any one to prove, and at the same time the experiment teaches an important natural law. Every child knows that the telephone and telegraph wires are made of copper because that metal is a good conductor of heat and electricity, which is only another form of heat. If a poker is heated in the fire, you pick up a cloth to hold the outer end, although it has not been in the fire, because experience has taught you that the heat is connected through the metal from the fire to the outer end.

This experiment with the flaming coal is based upon this principle and the additional one that linen and cotton are poor conductors of heat. Take a globe of copper and draw a piece of cloth tightly over it so that there is not a wrinkle at the top. If the linen or cotton is closely woven, the trick is all the more certain. Then, holding the cloth tightly in place, you can safely put a glowing coal on top of the cloth, and, while it burns fiercely, the cloth will not even be scorched.

The reason is that the great conductivity of the copper draws the heat of the coal before it can burn the cloth. Do not try this experiment with a good handkerchief first, for if the cloth is not tightly drawn it may burn, but take some worthless piece of linen or muslin, and after you are certain of your experience you can astonish your friends who do not know the secret.—Washington Post.

A LIVE COAL TRICK.

Teaches Natural Law, Yet Has All the Appearance of Magic.

No one would suppose that it is possible to hold a glowing coal on a piece of linen or cotton without burning the cloth, but that such can be done is easy for any one to prove, and at the same time the experiment teaches an important natural law. Every child knows that the telephone and telegraph wires are made of copper because that metal is a good conductor of heat and electricity, which is only another form of heat. If a poker is heated in the fire, you pick up a cloth to hold the outer end, although it has not been in the fire, because experience has taught you that the heat is connected through the metal from the fire to the outer end.

This experiment with the flaming coal is based upon this principle and the additional one that linen and cotton are poor conductors of heat. Take a globe of copper and draw a piece of cloth tightly over it so that there is not a wrinkle at the top. If the linen or cotton is closely woven, the trick is all the more certain. Then, holding the cloth tightly in place, you can safely put a glowing coal on top of the cloth, and, while it burns fiercely, the cloth will not even be scorched.

The reason is that the great conductivity of the copper draws the heat of the coal before it can burn the cloth. Do not try this experiment with a good handkerchief first, for if the cloth is not tightly drawn it may burn, but take some worthless piece of linen or muslin, and after you are certain of your experience you can astonish your friends who do not know the secret.—Washington Post.

CHEERFUL GIVERS.

Thank God That We Have Very Many of This Class in East Liverpool.

The writer needed $7 this morning, in order to meet a demand made by two charitable ladies of this city, ladies who have a very sad case on their hands. We called on seven different business men, and not one of the number refused our plea for a cart wheel, each man visited giving gladly, one member of council saying:

"In any cases of emergency like unto this, don't fail to call on me."

One gentleman had started for the News Review office to hand in a dollar for the India famine fund. Taking our advice, he diverted his dollar to the emergency case at home. When we reported back to the office with the seven dollars needed, we discovered that a lady had called in and contributed one dollar to the home case, and so the dollar contributed by the gentleman designated went into the India famine fund and was sent off this afternoon.

Seated at the office door a few minutes later, reading proof, an old soldier, gallant and true, loving and kind, pushed open the screen door, dropped a five-dollar bill in the writer's hand and said:

"For the famine fund."

God bless and prosper him; and bless and prosper every one of the above designated cheerful givers. Don't you want a share of the Master's blessings, oh ye many cheerful givers of East Liverpool?

Interesting Statistics.

The following statistics will be of interest to people who think the world is growing better:

In 1850 one person out of every 3,542 was in prison; in 1899 one out of every 855, and in 1890 one out of every 757, and the crimes represent homicide, theft, counterfeiting almost entirely.

In 1894 there were 7,749 homicides; in 1895, 8,000; in 1896, 10,000; in 1899, about 12,000.

From 1893 to 1898 there were 742 suicides and 150 murders in San Francisco. It is estimated that there are over 25,000 suicides in this nation annually.

Prostitution has increased 50 per cent per capita during the past ten years. It is estimated that there are at present over 600,000 in the United States.

Three thousand babies are abandoned by their mothers in New York City annually.

Rum shops increase at a fearful rate, there being in 1886, 161,483 separate places and 433,274 persons empliyed. Nearly all of these saloons are the recruiting shops for political corruption, which increases with each election.

In 1850 we consumed 1,000,000 kegs of beer. In 1890, with a population only two and one-half times greater, we consumed 37,000,000 barrels. In 1889 we consumed 506,076,400 gallons of liquors and wines. Seven years later we had increased the consumption to 1,189,379,448 gallons.

Deaths from alcoholism have increased 15 per cent in the past 25 years.—Exchange.

POLICEMAN ED DUNN, struck by brick.

There was a scene of desolation and evidences of violence and lawlessness unparalleled in the history of the city as a result of the fearful riot here. One child was lying cold in death and nearly a score of people were suffering from the wounds of pistol balls, buckshot and missiles.

The city building was a heap of smoldering ruins and beside it steamed the water-soaked ashes of Columbia hall.

The police force of the city was disorganized and scattered, the chief fleeing in desperation from the bloodshed, riot and burning, crazed by what his men had done.

Electric wires, deadly to the touch, lay across the streets in the vicinity of the burned buildings and debris of all kinds was scattered far and near. The downtown streets were just as the mob left them, and although nothing was being done by the rioters, crowds of spectators, hundreds in number, hung around "waiting for something to turn up."

The crowds began to increase as the curious spectators hurried to the scene of the trouble. A policeman appeared and then another, timid at first, but with increasing assurance, as no violence was offered. Then Company C, of Canton, a detachment of the gallant Eighth Ohio regimen, marched down the street from the train, and, halting before the ruins of the building, at once set to patrolling the fire lines.

There was no evidence of ill-will or disquiet on the part of the crowds at the lines. There was no talk of violence. The turbulent element had slunk away and order was once more fully restored. As the troops marched up the main thoroughfare after their arrival in the city hisses and groans were heard. The lawless element which had figured so prominently in the rioting was still in evidence, although no open resistance to the troops was shown. On the advice of friends, Mayor Young sought his office by back streets and alleyways, as it was feared that his presence so early after the rioting would cause a fresh outbreak.

Later nine companies of the Fourth regiment arrived in the city and marched to the scene of the rioting. A short time after Mayor W. E. Young issued a proclamation closing every saloon in Akron until further orders. If the situation demands more drastic measures the mayor states that the city will be put under martial law. Wild rumors were current that mobs were being formed to go to Cleveland to lynch Peck, but there were no grounds for the rumor.

In the Akron riot the innocent ones were those to suffer, while the guilty ones were practically uninjured. One killed, one fatally injured and 20 persons more or less injured is the result of the mob's work. Glen Wade was shot and almost instanly killed. He was in the mob and a bullet from the revolver of a policeman in the city hall found the boy's warm and throbbing heart. The lad was only 11 years of age. Another innocent who will die is Rhoda Davidson, the 7-year-old daughter of Mr. and Mrs. J. M. Davidson, of 111 Ally street. Sitting in a carriage with her mother and father, on the outskirts of the mob, the deadly bullet from the hands of a police officer hummed harmlessly over the rioting throng and found lodgment in the skull of the child. No hope is held out for her recovery.

The resistance shown by the police officers and city officials in the city hall only served to lash the mob into greater frenzy. Failing in its effort to force an entrance into the city hall, a portion of the mob ran to the store of the Standard Hardware company, on Main street, about one and a half blocks from the scene of the rioting. In a twinkling a large plate glass window in the front of the store was smashed to atoms, and the mob ran into and looted the store. Revolvers, rifles, shotguns, razors and thousands of rounds of ammunition were also taken, and with these weapons the mob returned to the city hall. Standing in the front windows of the city hall, Mayor Young, Chief of Police Harrison and other police officials were haranguing the mob, endeavoring to convince the rioters that Louis Peck, the colored man, charged with assaulting little 4-year-old Christine Maas, had been quietly removed from the jail during the afternoon and taken to Cleveland for safekeeping.

The remarks of the mayor only increased the anger of the mob. In his first attempt to quiet the mob he said that the prisoner had been taken out of the city about 4 o'clock. In another speech he gave 6 o'clock as the time of the prisoner's departure, and in speaking again he said 8 o'clock. They believed from the mayor's contradictory statements that he was not telling the truth and that the prisoner was still in the city jail, notwithstanding the fact that two different committees had searched the building from cellar to roof without finding any trace of the prisoner. John A. Wintrode, one of the committeemen, who made the search, stood on the roof of the building and told the mob that Peck was not to be found. The rioters refused to be satisfied, and with the cry, "To the courthouse," "To the county jail," they started up the hill to High street and across the commons to the courthouse and jail.

First they attacked the jail and were met by Deputy Sheriff Stone. On his request a committee was hurriedly appointed and every nook and corner of the jail was searched. "To the courthouse," the cry was again taken up, and a dash was made for the courthouse across the street. Doors were battered in, and the rioters surged through the different halls and rooms, but without result. A dash was then made for the treasurer's office, but the heavy iron doors checked the mob. Leaving the courthouse the mob returned to the vicinity of the city hall. "Burn them out!" was the cry from several people, and the echo of the cry was an affirmative roar from the entire mob. Adjoining the city hall, which was constructed almost entirely of brick, was an immense building, which for many years past was the principal public hall of Akron. This building—a veritable tinder-box—caught the eye of the mob as a likely place to set afire in the hope that the flames would soon spread to the city buildings. No sooner thought of than it was done. The large frame building was presently a mass of flames. The various fire companies responded to the alarm, but the mob refused to permit them to work. Several cowardly shots were fired at the brave firemen, and L. Manchester was the first to receive an injury. The lines of hose were cut and slashed until there was not a single stream of water playing on the devouring flames. Columbia hall was soon a ruin, but the city hall was yet standing. While the adjoining hall was burning the inmates of the city hall escaped through a back doorway. Resistance withdrawn, the mob made a rush for the hall. Flaming embers were thrown into the different rooms and the building was soon burning. Some of the more thoughtful ones in the mob liberated the prisoners from the hall below.

A stick of dynamite was thrown into the front of the burning buildings. A terrific crash followed and portions of the wall crumbled away. Another charge was exploded, and the work of devastation was completed.
tion was completed.

While this work was in progress members of the mob, having a peculiar sense of honor, pulled the automobile wagon from the station. One rioter, with a large knife in his hand, occupied the operator's seat, and amid the cheers of thousands, the wagon was run up and down the street, bumping into telegraph poles and curbstones and finally running down a steep incline into the canal. It was rescued in the morning and taken to a place of safety. The automobile, of which Akron was so proud, is a hopeless wreck. The physicians of the city were on the qui vive while the rioting was in progress.

Negro Assaults a Child.

Pittsburg, Aug. 24.—Robert Harris, of the Southside, Pittsburg, Pa., was locked up in the Allegheny county jail in default of $1,000 bail on charge of criminal assault upon Millie Roberts, aged 11 years, of Homestead. A lynching was feared for a time at Homestead.

DECENNIAL APPRAISERS.

The Time They Will be in Session and the Dates for Hearing Kicks from the Townships.

The county decennial board of equalization will be in session at the auditor's office, Lisbon, for the purpose of equalizing values of the real property as returned by the appraisers, and in order to facilitate the work would suggest that the property owners having complaints to make would appear on the dates designated for the various townships, as follows:

Can Form Associations.

The Columbus Anti-Cigarette association was given permission on Tuesday evening by the board of education to form anti-cigarette clubs in the public school, by a vote of 11 yeas to 4 nays.

The matter was brought before the board two meetings ago, and before it had been decided an adjournment was taken.

Fought Over 24 Cents.

Over at Akron four lawyers, a jury, a justice of the peace and several witnessses sweltered and perspired the whole of one of those hot days last week trying a lawsuit over 24 cents. It was a balance claimed to be due on a purchase of merchandise. The defendant showed a receipted bill and won the case. The costs amounted to $20.

HAY RIDE.

The Boys Anticipate a Jolly Good Time in the Truly Rural Districts.

The members of the National club have arranged for a hay ride tonight, contemplating visiting the residence of farmer Moore, distant some seven miles from East Liverpool. A number of fair damsels have been invited to participate, and they hesitated not a single moment in accepting.

Still a Tie.

The Steubenville board of education as yet has come to no agreement in the matter of selecting a superintendent. At the last meeting it was decided to take five ballots, which was done. Each vote resulted in a tie, six for Superintendent Mertz and six for a change.

As the school year must of necessity soon open it will be necessary for the matter to be decided shortly. The board meets again Monday evening of next week.

There was a scene of desolation and evidences of violence and lawlessness unparalleled in the history of the city as a result of the fearful riot here. One child was lying cold in death and nearly a score of people were suffering from the wounds of pistol balls, buckshot and missiles.

The city building was a heap of smoldering ruins and beside it steamed the water-soaked ashes of Columbia hall.

The police force of the city was disorganized and scattered, the chief fleeing in desperation from the bloodshed, riot and burning, crazed by what his men had done.

Electric wires, deadly to the touch, lay across the streets in the vicinity of the burned buildings and debris of all kinds was scattered far and near. The downtown streets were just as the mob left them, and although nothing was being done by the rioters, crowds of spectators, hundreds in number, hung around "waiting for something to turn up."

The crowds began to increase as the curious spectators hurried to the scene of the trouble. A policeman appeared and then another, timid at first, but with increasing assurance, as no violence was offered. Then Company C, of Canton, a detachment of the gallant Eighth Ohio regimen, marched down the street from the train, and, halting before the ruins of the building, at once set to patrolling the fire lines.

There was no evidence of ill-will or disquiet on the part of the crowds at the lines. There was no talk of violence. The turbulent element had slunk away and order was once more fully restored. As the troops marched up the main thoroughfare after their arrival in the city hisses and groans were heard. The lawless element which had figured so prominently in the rioting was still in evidence, although no open resistance to the troops was shown. On the advice of friends, Mayor Young sought his office by back streets and alleyways, as it was feared that his presence so early after the rioting would cause a fresh outbreak.

Later nine companies of the Fourth regiment arrived in the city and marched to the scene of the rioting. A short time after Mayor W. E. Young issued a proclamation closing every saloon in Akron until further orders. If the situation demands more drastic measures the mayor states that the city will be put under martial law. Wild rumors were current that mobs were being formed to go to Cleveland to lynch Peck, but there were no grounds for the rumor.

In the Akron riot the innocent ones were those to suffer, while the guilty ones were practically uninjured. One killed, one fatally injured and 20 persons more or less injured is the result of the mob's work. Glen Wade was shot and almost instanly killed. He was in the mob and a bullet from the revolver of a policeman in the city hall found the boy's warm and throbbing heart. The lad was only 11 years of age. Another innocent who will die is Rhoda Davidson, the 7-year-old daughter of Mr. and Mrs. J. M. Davidson, of 111 Ally street. Sitting in a carriage with her mother and father, on the outskirts of the mob, the deadly bullet from the hands of a police officer hummed harmlessly over the rioting throng and found lodgment in the skull of the child. No hope is held out for her recovery.

The resistance shown by the police officers and city officials in the city hall only served to lash the mob into greater frenzy. Failing in its effort to force an entrance into the city hall, a portion of the mob ran to the store of the Standard Hardware company, on Main street, about one and a half blocks from the scene of the rioting. In a twinkling a large plate glass window in the front of the store was smashed to atoms, and the mob ran into and looted the store. Revolvers, rifles, shotguns, razors and thousands of rounds of ammunition were also taken, and with these weapons the mob returned to the city hall. Standing in the front windows of the city hall, Mayor Young, Chief of Police Harrison and other police officials were haranguing the mob, endeavoring to convince the rioters that Louis Peck, the colored man, charged with assaulting little 4-year-old Christine Maas, had been quietly removed from the jail during the afternoon and taken to Cleveland for safekeeping.

The remarks of the mayor only increased the anger of the mob. In his first attempt to quiet the mob he said that the prisoner had been taken out of the city about 4 o'clock. In another speech he gave 6 o'clock as the time of the prisoner's departure, and in speaking again he said 8 o'clock. They believed from the mayor's contradictory statements that he was not telling the truth and that the prisoner was still in the city jail, notwithstanding the fact that two different committees had searched the building from cellar to roof without finding any trace of the prisoner. John A. Wintrode, one of the committeemen, who made the search, stood on the roof of the building and told the mob that Peck was not to be found. The rioters refused to be satisfied, and with the cry, "To the courthouse." "To the county jail," they started up the hill to High street and across the commons to the courthouse and jail.

First they attacked the jail and were met by Deputy Sheriff Stone. On his request a committee was hurriedly appointed and every nook and corner of the jail was searched. "To the courthouse," the cry was again taken up, and a dash was made for the courthouse across the street. Doors were battered in, and the rioters surged through the different halls and rooms, but without result. A dash was then made for the treasurer's office, but the heavy iron doors checked the mob. Leaving the courthouse the mob returned to the vicinity of the city hall. "Burn them out!" was the cry from several people, and the echo of the cry was an affirmative roar from the entire mob. Adjoining the city hall, which was constructed almost entirely of brick, was an immense building, which for many years past was the principal public hall of Akron. This building—a veritable tinder-box—caught the eye of the mob as a likely place to set afire in the hope that the flames would soon spread to the city buildings. No sooner thought of than it was done. The large frame building was presently a mass of flames. The various fire companies responded to the alarm, but the mob refused to permit them to work. Several cowardly shots were fired at the brave firemen, and L. Manchester was the first to receive an injury. The lines of hose were cut and slashed until there was not a single stream of water playing on the devouring flames. Columbia hall was soon a ruin, but the city hall was yet standing. While the adjoining hall was burning the inmates of the city hall escaped through a back doorway. Resistance withdrawn, the mob made a rush for the hall. Flaming embers were thrown into the different rooms and the building was soon burning. Some of the more thoughtful ones in the mob liberated the prisoners from the hall below.

A stick of dynamite was thrown into the front of the burning buildings. A terrific crash followed and portions of the wall crumbled away. Another charge was exploded, and the work of devastation was completed.
tion was completed.

While this work was in progress members of the mob, having a peculiar sense of honor, pulled the automobile wagon from the station. One rioter, with a large knife in his hand, occupied the operator's seat, and amid the cheers of thousands, the wagon was run up and down the street, bumping into telegraph poles and curbstones and finally running down a steep incline into the canal. It was rescued in the morning and taken to a place of safety. The automobile, of which Akron was so proud, is a hopeless wreck. The physicians of the city were on the qui vive while the rioting was in progress.

Negro Assaults a Child.

Pittsburg, Aug. 24.—Robert Harris, of the Southside, Pittsburg, Pa., was locked up in the Allegheny county jail in default of $1,000 bail on charge of criminal assault upon Millie Roberts, aged 11 years, of Homestead. A lynching was feared for a time at Homestead.

DECENNIAL APPRAISERS.

The Time They Will be in Session and the Dates for Hearing Kicks from the Townships.

The county decennial board of equalization will be in session at the auditor's office, Lisbon, for the purpose of equalizing values of the real property as returned by the appraisers, and in order to facilitate the work would suggest that the property owners having complaints to make would appear on the dates designated for the various townships, as follows:

Can Form Associations.

The Columbus Anti-Cigarette association was given permission on Tuesday evening by the board of education to form anti-cigarette clubs in the public school, by a vote of 11 yeas to 4 nays.

The matter was brought before the board two meetings ago, and before it had been decided an adjournment was taken.

Fought Over 24 Cents.

Over at Akron four lawyers, a jury, a justice of the peace and several witnessses sweltered and perspired the whole of one of those hot days last week trying a lawsuit over 24 cents. It was a balance claimed to be due on a purchase of merchandise. The defendant showed a receipted bill and won the case. The costs amounted to $20.

The Steubenville board of education as yet has come to no agreement in the matter of selecting a superintendent. At the last meeting it was decided to take five ballots, which was done. Each vote resulted in a tie, six for Superintendent Mertz and six for a change.

As the school year must of necessity soon open it will be necessary for the matter to be decided shortly. The board meets again Monday evening of next week.

WAR RUSSIA'S POLICY

Commander Disregards Chaffee's Advice.

CHIPPED ENOUGH, SAID AMERICAN

The United States Commander Opposed the Capture of the Imperial Palace, as Did Others of the Commanders. Great Fire Raged.

London, Aug. 24.—Fires, fighting and dissension apparently followed in the wake of the relief of Peking. The Daily Mail published dispatches from the Chinese capital, dated as late as Aug. 17, declaring that a great fire was then raging in the imperial city. The Russian commander had declined to accept the decision of the other generals not to violate the imperial precincts and street fighting was going on.

General Chaffee, so it was asserted, maintained that the Chinese had been adequately punished already, and that it would be unwise to take the imperial palace. This explains the withdrawal of the Americans after breaching three gates, as cabled by the special correspondent of the Associated Press. The Russian general, however, maintained that his government had declared war against China, and that, therefore, there was no reason to prevent him carrying hostilities into the sacred precincts.

HOW CAPT. REILLY FELL.

Americans Were Breaching the Wall When a Bullet Struck the Officer in the Month.

Peking, Aug. 15, via Che Foo, Aug. 23.—The Americans breached three gates before the imperial palace and occupied the approaches to the last wall.

Captain Henry Reilly Battery F, Fifth United States artillery, and five privates were killed and 16 were wounded. During the afternoon the Americans returned to camp, pending conference between the generals. Thereupon the Russians occupied the approaches to the palace. Captain Reilly was standing on the wall and directing his battery when a bullet struck him in the mouth, killing him instantly. The battery hammered at the gates until they fell. In the meantime the infantry cleared the street and walls, where the Chinese soldiers, with a fine cover, stubbornly resisted. The fighting was close and sharp. A French battery, while shelling the approaches to the palace, narrowly missed the Americans. General Chaffee and Mr. Conger are conferring regarding the diplomatic features of the situation.

THE COPRESPONDENCE WITH LI.

Text of Proposal and Refusal to Negotiate Now.

Washington, Aug. 24.—The state department made public the following correspondence relating to the Chinise proposition for a cessation of hostilities and the reply of the United States:

Chinese Correspondence, Aug. 20-22, 1900. Handed to Mr. Adee, by Mr. Wu, Aug. 20, 1900, 10:15 a. m. Cablegram dated Aug. 19, from Viceroy Li Hung Chang, was transmitted by the Chinese minister to London and received by Minister Wu on the night of the same day:

"It was the declaration of all the ministers for foreign affairs of the great powers that the expedition of the allied troops was solely for the rescue of the ministers in Peking. Now, the allied troops having entered Peking and found all the ministers safe, it seems proper that hostilities should at once cease and that negotiations should commence, I therefore request the United States government to appoint an envoy with full powers or appoint the minister now in Peking for the purpose, as he is necessarily acquainted with the affairs between Chinese and the foreigners, and to inform me if the conference will take place in Peking. After receipt of a definite reply, I will at once proceed to the north. Please request the secretary of state to lay the matter before his excellency, the president. Await reply.

Received at the department of state, Aug. 21, 1900, 3:17 p. m. Cablegram from Viceroy Li Hung Chang, dated Aug. 21, 1900, and received by Minister Wu on the same day:

"The Boxer rebels in Peking having been dispersed, there will be positively no more fighting. Further military operations on the part of the powers are greatly to be deplored. Besides urging cessation of hostilities, please confer with secretary of state upon subject of withdrawal of troops and appointment of plenipotentiary to negotiate settlement of all other questions so as to preserve amicable relations. I await early reply."

Sent to the Chinese minister, Aug. 22, 1900, 1:30 p. m. Memorandum in response to Chinese minister's communication of cablegrams from Viceroy Earl Li Hung Chang, dated Aug. 19 and 21, proposing the immediate cessation of hostilities and the appointment of an envoy to conduct negotiations, received at the department of state Aug. 20 and 21, 1900:

"While the condition set forth in the memorandum delivered to the Chinese minister Aug. 12 has not been fulfilled, and the powers have been compelled to rescue their ministers by force of arms, unaided by the Chinese government, still this government is ready to welcome any overtures for a truce and invites the other powers to join when security is established in the Chinese capital and the Chinese government shows its ability and willingness to make on its part an effective suspension of hostilities there and elsewhere in China.

"When this is done—and we hope it will be done promptly—the United States will be prepared to appoint a representative to join with the representatives of other similarly interested powers and of the authoritative and responsible government of the Chinese empire to attain the ends declared in our circular to the powers of July 3, 1900.

"Aacting Secretary."

NO MORE TROOPS TO CHINA.

Government Decided to Direct Soldiers to Manila.

Washington, Aug. 24.—The government decided not to send any more troops to China. All the troops now at sea, amounting to about 4,000, together with those under orders for service in the far east, which have not sailed, amounting to about 3,000 more, will be sent to Manila. These troops will sail on the same route, and upon touching at Nagasaki will go on to Manila, unless there are developments in China, not now expected, which would make their presence necessary in that country.

Inter-State Games Scheduled For Today

Toledo at Dayton, Marion at Anderson, Wheeling at Mansfield and New Castle at Fort Wayne.

OHIO IN CONGRESS FROM 1803 TO 1901.

FRANK H. HURD.

Frank H. Hurd, lawyer, political economist and Democratic leader, was born in Mt. Vernon, Ohio, Dec. 25, 1841, and died in Toledo in July, 1896. He began his education in the public schools and graduated from Kenyon college in 1858. He then took up the study of law and was admitted to the practice in 1861, and was elected prosecuting attorney of Knox county in 1863.

In 1865 he was elected to the senate of the Fifty-seventh general assembly from the Seventeenth-Twenty-eight joint senatorial district, Knox and Morrow, and Wayne and Holmes counties. In 1868 he was appointed as a member of the commission to codify the criminal laws of the state. About that year he removed to Toledo, where he became one of the most prominent lawyers in that city.

In 1874 he was elected to the Forty-fourth congress from the Sixth district, Lucas, Ottawa, Williams, Fulton, Henry and Wood counties. In 1876 he was defeated by Jacob Dolson Cox in the same district. He was placed in the Seventh district under the apportionment of 1876, Lucas, Hancock, Ottawa, Sandusky and Wood, and was elected to the Forty-sixth congress.

In 1882 he was elected to the Forty-eighth congress from the Tenth district, Lucas, Erie, Sandusky and Ottawa, and in 1884 received the certificate of election to the Forty-ninth from the same district, but was unseated in favor of Jacob Romeis, who contested his election. Mr. Hurd was not only a tariff reformer, but the advocate of absolute free trade, being far in advance of the most advanced lines of his party on this question.

EARLY F. POPPLETON.

Early F. Poppleton of Delaware was born in 1834, in Richland county, and was prominent in the practice of his profession in the city where he held a high professional rank from the date of his admission to the bar in 1856 until his death, May 6, 1899. A Democrat and a man of ability, and often intrusted with positions of responsibility, he has never been a politician in the officeseeking sense of the term.

He was a member of the senate of the Fifty-ninth general assembly in 1870-1872, and served one term in congress, having been elected to the Forty-fourth in 1874 from the Ninth district, Delaware, Hardin, Marion, Union, Morrow and Knox. The district was Republican, and Mr. Poppleton failed of a re-election.

JOHN L. VANCE.

Colonel John Luther Vance of Gallipolis, a Democratic editor and leader and a most gallant soldier, still resides in that city, where for more than 30 years he has been a leading citizen and a promoter of every public and municipal interest, especially the slack-water improvement of the Ohio river, of which he was the pioneer and is still the champion.

Colonel Vance has always resided in an overwhelmingly Republican district, and has always been an uncompromising Democrat, and, as the editor of the Gallipolis Bulletin, fought his political opponents an unending battle, yet so highly is he esteemed for his personal qualities and public enterprise, that in 1874 he was able to overcome an adverse majority of several thousand, and was elected to the Forty-fourth congress from the Eleventh district, composed of Gallia, Lawrence, Scioto, Jackson, Vinton and Hocking counties. During his term in congress he raised the question of the systematic improvement of the Ohio river, so as to make it navigable during the open season, and he still advocates it, with a fair prospect of ultimate success.

Colonel Vance was born in Gallipolis, Ohio, July 19, 1839, and educated in the public schools. He enlisted in the military service in April, 1861, and served under the first three months' call as a staff officer, with the rank of captain. He then assisted in recruiting the Fourth Virginia Infantry and was commissioned captain, and was promoted through the intervening grades to colonel, and was repeatedly assigned as brigade commander. He served through the West Virginia campaigns; in Tennessee; at Vicksburg, Jackson, Missionary Ridge and in the Valley of Virginia. He participated in 47 battles and skirmishes, and was wounded in six different actions, severely at Vicksburg and Berryville.

After being mustered out of the service he read law and was admitted to the bar, and became one of the most prominent members of his profession in southern Ohio and West Virginia. He was quartermaster general of Ohio under Governor James E. Campbell.

ANSEL T. WALLING.

Ansel T. Walling of Circleville, Pickaway county, was born in Otsego, New York, Jan. 10, 1824, and died at Circleville at the age of 60. At the age of nine years he was carried to Pennsylvania, where he received a good education, and afterward learned the printers' trade. He came to Ohio in 1843, and founded the Mahoning Index, a Democratic paper, at Youngstown. Later he became editor of the Coshocton Democrat.

In 1851-1852 he was assistant clerk of the Ohio house of representatives, and in 1852 was admitted to the bar. From 1855 to 1859 he was editor of the Keokuk (Iowa) Daily Times, a Democratic newspaper. In 1861 he returned to Ohio and began the practice of law at Circleville, and built up a good practice.

In 1865 he was elected to the senate of the Fifty-seventh general assembly from the Tenth district, Pickaway and Franklin, and was president pro tempore of the body. In 1867 he represented Pickaway county in the house of the Fifty-eighth general assembly. He was elected to the Forty-fourth congress in 1874 from the Twelfth district, Pickaway, Franklin, Fairfield and Perry counties. His record in the legislature and in congress was good.

JACOB P COWEN.

Jacob P. Cowen of Ashland represented that county in the house of the Fifty-third general assembly as a Democrat. In 1874 he was elected to the Forty-fourth congress from the Fourteenth district, comprising Ashland, Holmes, Richland, Crawford and Wyandot, and served a single term. He was a physician and merchant, and was born in Florence, Pa., March 20, 1823.

HENRY B. PAYNE.

Henry B. Payne of Cleveland was elected to the Forty-fourth congress in 1874 from the Twentieth district, composed of Cuyahoga county. He was defeated two years later by Amos Townsend. An extended sketch of Mr. Payne will be found in the list of United States senators.

He began his education in the public schools and graduated from Kenyon college in 1858. He then took up the study of law and was admitted to the practice in 1861, and was elected prosecuting attorney of Knox county in 1863.

In 1865 he was elected to the senate of the Fifty-seventh general assembly from the Seventeenth-Twenty-eight joint senatorial district, Knox and Morrow, and Wayne and Holmes counties. In 1868 he was appointed as a member of the commission to codify the criminal laws of the state. About that year he removed to Toledo, where he became one of the most prominent lawyers in that city.

In 1874 he was elected to the Forty-fourth congress from the Sixth district, Lucas, Ottawa, Williams, Fulton, Henry and Wood counties. In 1876 he was defeated by Jacob Dolson Cox in the same district. He was placed in the Seventh district under the apportionment of 1876, Lucas, Hancock, Ottawa, Sandusky and Wood, and was elected to the Forty-sixth congress.

In 1882 he was elected to the Forty-eighth congress from the Tenth district, Lucas, Erie, Sandusky and Ottawa, and in 1884 received the certificate of election to the Forty-ninth from the same district, but was unseated in favor of Jacob Romeis, who contested his election. Mr. Hurd was not only a tariff reformer, but the advocate of absolute free trade, being far in advance of the most advanced lines of his party on this question.

EARLY F. POPPLETON.

Early F. Poppleton of Delaware was born in 1834, in Richland county, and was prominent in the practice of his profession in the city where he held a high professional rank from the date of his admission to the bar in 1856 until his death, May 6, 1899. A Democrat and a man of ability, and often intrusted with positions of responsibility, he has never been a politician in the officeseeking sense of the term.

He was a member of the senate of the Fifty-ninth general assembly in 1870-1872, and served one term in congress, having been elected to the Forty-fourth in 1874 from the Ninth district, Delaware, Hardin, Marion, Union, Morrow and Knox. The district was Republican, and Mr. Poppleton failed of a re-election.

JOHN L. VANCE.

Colonel John Luther Vance of Gallipolis, a Democratic editor and leader and a most gallant soldier, still resides in that city, where for more than 30 years he has been a leading citizen and a promoter of every public and municipal interest, especially the slack-water improvement of the Ohio river, of which he was the pioneer, and is still the champion.

Colonel Vance has always resided in an overwhelmingly Republican district, and has always been an uncompromising Democrat, and, as the editor of the Gallipolis Bulletin, fought his political opponents an unending battle, yet so highly is he esteemed for his personal qualities and public enterprise, that in 1874 he was able to overcome an adverse majority of several thousand, and was elected to the Forty-fourth congress from the Eleventh district, composed of Gallia, Lawrence, Scioto, Jackson, Vinton and Hocking counties. During his term in congress he raised the question of the systematic improvement of the Ohio river, so as to make it navigable during the open season, and he still advocates it, with a fair prospect of ultimate success.

Colonel Vance was born in Gallipolis, Ohio, July 19, 1839, and educated in the public schools. He enlisted in the military service in April, 1861, and served under the first three months' call as a staff officer, with the rank of captain. He then assisted in recruiting the Fourth Virginia Infantry and was commissioned captain, and was promoted through the intervening grades to colonel, and was repeatedly assigned as brigade commander. He served through the West Virginia campaigns; in Tennessee; at Vicksburg, Jackson, Missionary Ridge and in the Valley of Virginia. He participated in 47 battles and skirmishes, and was wounded in six different actions, severely at Vicksburg and Berryville.

After being mustered out of the service he read law and was admitted to the bar, and became one of the most prominent members of his profession in southern Ohio and West Virginia. He was quartermaster general of Ohio under Governor James E. Campbell.

ANSEL T. WALLING.

Ansel T. Walling of Circleville, Pickaway county, was born in Otsego, New York, Jan. 10, 1824, and died at Circleville at the age of 60. At the age of nine years he was carried to Pennsylvania, where he received a good education, and afterward learned the printers' trade. He came to Ohio in 1843, and founded the Mahoning Index, a Democratic paper, at Youngstown. Later he became editor of the Coshocton Democrat.

In 1851-1852 he was assistant clerk of the Ohio house of representatives, and in 1852 was admitted to the bar. From 1855 to 1859 he was editor of the Keokuk (Iowa) Daily Times, a Democratic newspaper. In 1861 he returned to Ohio and began the practice of law at Circleville, and built up a good practice.

In 1865 he was elected to the senate of the Fifty-seventh general assembly from the Tenth district, Pickaway and Franklin, and was president pro tempore of the body. In 1867 he represented Pickaway county in the house of the Fifty-eighth general assembly. He was elected to the Forty-fourth congress in 1874 from the Twelfth district, Pickaway, Franklin, Fairfield and Perry counties. His record in the legislature and in congress was good.

JACOB P COWEN.

Jacob P. Cowen of Ashland represented that county in the house of the Fifty-third general assembly as a Democrat. In 1874 he was elected to the Forty-fourth congress from the Fourteenth district, comprising Ashland, Holmes, Richland, Crawford and Wyandot, and served a single term. He was a physician and merchant, and was born in Florence, Pa., March 20, 1823.

HENRY B. PAYNE.

Henry B. Payne of Cleveland was elected to the Forty-fourth congress in 1874 from the Twentieth district, composed of Cuyahoga county. He was defeated two years later by Amos Townsend. An extended sketch of Mr. Payne will be found in the list of United States senators.

WAR RUSSIA'S POLICY

Commander Disregards Chaffee's Advice.

CHIPPED ENOUGH, SAID AMERICAN

The United States Commander Opposed the Capture of the Imperial Palace, as Did Others of the Commanders. Great Fire Raged.

London, Aug. 24.—Fires, fighting and dissension apparently followed in the wake of the relief of Peking. The Daily Mail published dispatches from the Chinese capital, dated as late as Aug. 17, declaring that a great fire was then raging in the imperial city. The Russian commander had declined to accept the decision of the other generals not to violate the imperial precincts and street fighting was going on.

General Chaffee, so it was asserted, maintained that the Chinese had been adequately punished already, and that it would be unwise to take the imperial palace. This explains the withdrawal of the Americans after breaching three gates, as cabled by the special correspondent of the Associated Press. The Russian general, however, maintained that his government had declared war against China, and that, therefore, there was no reason to prevent him carrying hostilities into the sacred precincts.

HOW CAPT. REILLY FELL.

Americans Were Breaching the Wall When a Bullet Struck the Officer in the Mouth.

Peking, Aug. 15, via Che Foo, Aug. 23.—The Americans breached three gates before the imperial palace and occupied the approaches to the last wall.

Captain Henry Reilly Battery F, Fifth United States artillery, and five privates were killed and 16 were wounded. During the afternoon the Americans returned to camp, pending a conference between the generals. Thereupon the Russians occupied the approaches to the palace. Captain Reilly was standing on the wall and directing his battery when a bullet struck him in the mouth, killing him instantly. The battery hammered at the gates until they fell. In the meantime the infantry cleared the street and walls, where the Chinese soldiers, with fine cover, stubbornly resisted. The fighting was close and sharp. A French battery, while shelling the approaches to the palace, narrowly missed the Americans. General Chaffee and Mr. Conger are conferring regarding the diplomatic features of the situation.

THE COPRESPONDENCE WITH LI.

ext of Proposal and Refusal to Negotiate Now.

Washington, Aug. 24.—The state department made public the following correspondence relating to the Chinise proposition for a cessation of hostilities and the ply of the United States:

inese Correspondence, Aug. 20-22, 1900. Handed to Mr. Adee, by Mr. Wu, Aug. 20, 1900, 10:15 a. m. Cablegram dated Aug. 19, from Viceroy Li Hung Chang, was transmitted by the Chinese minister to London and received by Minister Wu on the night of the same day:

"It was the declaration of all the ministers for foreign affairs of the great powers at the expedition of the allied troops as solely for the rescue of the ministers Peking. Now, the allied troops having tered Peking and found all the ministers fe, it seems proper that hostilities ould at once cease and that negotiations ould commence, I therefore request the ited States government to appoint an voy with full powers or appoint the minter now in Peking for the purpose, as he necessarily acquainted with the affairs tween Chinese and the foreigners, and to form me if the conference will take place Peking. After receipt of a definite reply, will at once proceed to the north. Please quest the secretary of state to lay the tter before his excellency, the president. wait reply.

ceived at the department of state, Aug. 21, 1900, 3:17 p. m. Cablegram from Viceroy Li Hung Chang, dated Aug. 21, 1900, and received by Minister Wu on the same day:

"The Boxer rebels in Peking having been spersed, there will be positively no more hting. Further military operations on part of the powers are greatly to be plored. Besides urging cessation of hosities, please confer with secretary of te upon subject of withdrawal of troops d appointment of plenipotentiary to negote settlement of all other questions so to preserve amicable relations. I await dly reply."

y to the Chinese minister, Aug. 22, 1900, 1:30 p. m. Memorandum in reponse to Chinese minister's communication of cablegrams from Viceroy Earl Hung Chang, dated Aug. 19 and 21, proposing the immediate cessation of hostilities and the appointment of an envoy conduct negotiations, received at the department of state Aug. 20 and 21, 1900:

"While the condition set forth in the memorandum delivered to the Chinese minister Aug. 12 has not been fulfilled, and the powers have been compelled to rescue their ministers by force of arms, unaided by the Chinese government, still this government is ready to welcome any overtures for a truce and invites the other powers to join when security is established in the Chinese capital and the Chinese government shows its ability and willingness to make on its part an effective suspension of hostilities there and elsewhere in China.

"When this is done—and we hope it will be done promptly—the United States will be prepared to appoint a representative to join with the representatives of other similarly interested powers and of the authoritative and responsible government of the Chinese empire to attain the ends declared in our circular to the powers of July 3, 1900.

Alvey A. Adee,
"Aacting Secretary."

NO MORE TROOPS TO CHINA.

Government Decided to Direct Soldiers to Manila.

Washington, Aug. 24.—The government decided not to send any more troops to China. All the troops now at sea, amounting to about 4,000, together with those under orders for service in the far east, which have not sailed, amounting to about 3,000 more, will be sent to Manila. These troops will sail on the same route, and upon touching at Nagasaki will go on to Manila, unless there are developments in China, not now expected, which would make their presence necessary in that country.

OHIO IN CONGRESS FROM 1803 TO 1901.

FRANK H. HURD.

Frank H. Hurd, lawyer, political economist and Democratic leader, was born in Mt. Vernon, Ohio, Dec. 25, 1841, and died in Toledo in July, 1896. He began his education in the public schools and graduated from Kenyon college in 1858. He then took up the study of law and was admitted to the practice in 1861, and was elected prosecuting attorney of Knox county in 1863.

In 1865 he was elected to the senate of the Fifty-seventh general assembly from the Seventeenth-Twenty-eight joint senatorial district, Knox and Morrow, and Wayne and Holmes counties. In 1868 he was appointed as a member of the commission to codify the criminal laws of the state. About that year he removed to Toledo, where he became one of the most prominent lawyers in that city.

In 1874 he was elected to the Forty-fourth congress from the Sixth district, Lucas, Ottawa, Williams, Fulton, Henry and Wood counties. In 1876 he was defeated by Jacob Dolson Cox in the same district. He was placed in the Seventh district under the apportionment of 1876, Lucas, Hancock, Ottawa, Sandusky and Wood, and was elected to the Forty-sixth congress.

In 1882 he was elected to the Forty-eighth congress from the Tenth district, Lucas, Erie, Sandusky and Ottawa, and in 1884 received the certificate of election to the Forty-ninth from the same district, but was unseated in favor of Jacob Romeis, who contested his election. Mr. Hurd was not only a tariff reformer, but the advocate of absolute free trade, being far in advance of the most advanced lines of his party on this question.

A Democrat and a man of ability, and often intrusted with positions of responsibility, he has never been a politician in the officeseeking sense of the term.

He was a member of the senate of the Fifty-ninth general assembly in 1870-1872, and served one term in congress, having been elected to the Forty-fourth in 1874 from the Ninth district, Delaware, Hardin, Marion, Union, Morrow and Knox. The district was Republican, and Mr. Poppleton failed of a re-election.

JOHN L. VANCE.

Colonel John Luther Vance of Gallipolis, a Democratic editor and leader and a most gallant soldier, still resides in that city, where for more than 30 years he has been a leading citizen and a promoter of every public and municipal interest, especially the slack-water improvement of the Ohio river, of which he was the pioneer and is still the champion.

Declared He Would Be Whatever the the Committee Wanted—Swayne and Strong For Him.

New York, Aug. 24.—Chairman Odell of the Republican state committee, was asked if he had told Senator Platt Wednesday night that he would accept the nomination for governor of New York.

He said he was in Newburg that night, but the statement might have been made some other time. "I won't deny it," said he. "I will not run away from anything the convention wants me to do, or decline any honors it wishes to confer upon me. But I will still remain chairman of the Republican state committee, and work my hardest for the election of McKinley and Roosevelt."

Two promineat independent Republicans declared their acceptance of State Chairman Odell as a candidate for governor. One was ex-Mayor Strong and the other was Hon. Wager Swayne.

"Famine distress appalling. Thousands will die of starvation unless rescued. Money is needed to buy both food and blankets. The suffering from lack of clothing is terrible. Chelera still active. The condition of destitute women and deserted children specially pititable. Many boys and girls are in heartrending need."

CUBAN TEACHERS ENTERTAINED.

Guests of Philadelphia—Given an Official Reception.

Philadelphia, Aug. 24.—The transports Sedgwick, Crook, Rawlins and McPherson, with the Cuban teachers, numbering over 1,000 who are visiting this country, reached this city. The ships were anchored off the Chestnut street wharf, and later the teachers debarked and began their sightseeing tour. The members of the general committee and the city officials met the party down the river, where an official welcome was extended. As the teachers stepped from the boats to the pier they found awaiting them a delegation of Spanish-speaking guides, and the entire party proceeded in street cars, automobiles and on foot to Independence hall, where a welcome was extended by Mayor Ashbridge.

Professor Edward Brooks, superintendent of public schools, made a brief address, and was followed by Dr. Edward Pornias, who addressed the delegation in Spanish. The orator of the occasion was United States Senator Boise Penrose. The teachers were then further entertained.

POPULATION OF OHIO CITIES.

Cleveland, 381,768; Toledo, 131,822; Columbus, 125,560.

Washington, Aug. 24. —The population of Cleveland, Toledo and Columbus, O., were announced by the census bureau in the following bulletins:

Population of the city of Cleveland, 1900, 381,768; 1890, 261,353. These figures show, for the city, as a whole, an increase in population of 120,415, or 46.07 per cent, from 1890 to 1900.

Population of Toledo, 1900, 131,822; 1890, 81,434. These figures show, for the city, as a whole, an increase in population of 50,388, or 61.88 per cent, from 1890 to 1900.

Population of Columbus, O., 1900, 125,560; 1890, 88,150. These figures show, for the city, as a whole, an increase in population of 37,410, or 42.44 per cent, from 1890 to 1900.

President Not to Go to Chicago.

Washington, Aug. 24.—The president determined that the public business is of such a pressing and important character that he cannot start for Chicago this evening to attend the annual encampment of the Grand Army. He may find later that he can go on Monday or Tuesday, but, according to the statements of his advisers, the chances for a change of determination are few and small.

A man who finds no satisfaction in himself seeks for it in vain elsewhere.

Declared He Would Be Whatever the the Committee Wanted—Swayne and Strong For Him.

New York, Aug. 24.—Chairman Odell of the Republican state committee, was asked if he had told Senator Platt Wednesday night that he would accept the nomination for governor of New York.

He said he was in Newburg that night, but the statement might have been made some other time. "I won't deny it," said he. "I will not run away from anything the convention wants me to do, or decline any honors it wishes to confer upon me. But I will still remain chairman of the Republican state committee, and work my hardest for the election of McKinley and Roosevelt."

Two prominent independent Republicans declared their acceptance of State Chairman Odell as a candidate for governor. One was ex-Mayor Strong and the other was Hon. Wager Swayne.

THE EVENING NEWS REVIEW.

16TH YEAR. NO. 65. EAST LIVERPOOL, O., FRIDAY, AUGUST 24, 1900. TWO CENTS

THE KICKERS ARE PRESENT

Property Owners Are Stating Their Troubles to City Decennial Board of Equalization.

TALK ABOUT YOUR VALUES

Some Property Supposed to Have Increased at a Very Rapid Rate.

APPRAISEMENT IS TOO HIGH

When the members of the city decennial board of equalization arrived at city hall this morning they found a large crowd of property owners waiting for them.

The property owners all had kicks to register with the board and that body wont finish up their work for many weeks if the rush keeps up, and there is every indication that it will.

The present board has no power to reduce the sum total of the appraisement of Appraiser Adam, but can simply adjust by taking off one piece of property and putting it on another. When the state board gets the aprisement the valuation can be lowered in this city, but must be put on another township. Five years ago the valuation of East Liverpool was reduced in this way 10 per cent.

The kicks are still coming in. John H. Greene owns a 60-foot lot at 118 Grant street. His old appraisement was $780 and now it is $1,750, making an increase of $970. He naturally objects.

Mary Greene has a lot 30x40 on Summit lane. She formerly paid taxes on $410, but now if there is no change made she will have to pay taxes on $1,000 ,an increase of $570.

Samuel Barlow has a lot 40x130 at 108 Grant street. His property was valued at $660 in 1890, now it is valued at $1,000, an increase of only $340.

In the case of lot 3273 the old appraisement was $180, now it is $750, an increase of $570. This lot owner will certainly object.

A widow woman who is paying for her property formerly had it appraised at $770. The new appraisement is $1,800, an increase of $1,030. Just think what that means in taxes every year.

Another piece of property in the city was valued at $490, now it is placed at $1,100, an increase of $630. It must be good property that more than doubles in value in 10 years.

These are only a few of the kicks, and when President Kerr and members Smith Fowler, Colonel W. C. Watson, Frank Allebaugh, George Ikirt and George Olnhausen get through with their work they will probably have earned their money.

The only other township in the county that showed a larger per cent of increase than Liverpool was Washington. Liverpool increased 70 per cent and Washington went it a little better, but not much.

The Tongue Broke.

While James Cunningham, driver for the McNicol pottery company, was hauling a load of slag down Union street yesterday, the lock refused to work and the wagon got beyond control.

The outfit went down the hill at a rapid rate and in an attempt to check the speed of the wagon the tongue was broken. It was hauled to a shop nearby, where the damage will be repaired.

THE BITERS BITTEN.

These Practical Jokers Were Sadly Sold and Have the Laugh on Themselves.

Mr. Johnson, the clever gentleman in charge of the construction of the new Potters National bank, has made a host of friends in East Liverpool since his advent among us. Embraced in this number are several practical jokers, young fellows who never lose an opportunity for a joke on their comrades or chums. Johnson had occasion to attend to some business in a far distant city and was away for several days. He was to return the other morning, on the early train, No. 41, and this was the golden opportunity for the jokers. Six or seven of them got together in the night and secured all manner of instruments suitable for a serenade. Two of the number secured a wheelbarrow and mounted a heavy organ thereon and wheeled the same to the depot, the other impromptu musicians arranging themselves about the organ, ready to produce the harmony of melody as Mr. Johnson alighted from the train. But Mr. Johnson failed to materialize, having been detained in the city, and the jokers were about the worst disappointed crew in existence. Two of the number were compelled to man the wheelbarrow and propel that heavy organ from the depot to the head of Broadway, and an interested citizen declares that the air was blue with the maledictions of the couple as they worked their way to their destination. Johnson has since arrived, got onto the sell, and makes it interesting for his chums.

SCRAPED HIS FACE.

Oscar Gordon Stood on His Head When He Tried to Get on a Street Car.

Oscar Gordon, of Calcutta road, in attempting to board a Southside street car on Market street was thrown to the pavement and severely bruised about the head and face.

Gordon states that the car had stopped to permit him to get aboard, but had started with a jerk before he had gotten a firm hold on the handles. He landed squarely on his head, and from the appearance of the right side of his face, undoubtedly remained there until he stopped sliding. Every particle of skin on that side of his face was removed by the fall and his right knee was severely bruised, rendering it impossible for him to work for some time.

WILL CARRY THE COLORS.

An Honor Has Been Conferred Upon Postmaster W. H. Surles of This City.

Postmaster W. H. Surles has been requested to carry the colors for the department of Ohio in the parade at the Chicago encampment.

He will accept the honor and be with the boys at Chicago.

The department of Ohio could not have chosen a man better fitted for the honor than Mr. Surles.

—Mr. and Mrs. Nichol Giffen, Cadiz, O., were visiting at the home of A. W. King, Avondale street, yesterday. The visitors returned home last evening.

CADIZ CROWD WAS A BAD ONE

The Police Had a Whole Lot of Trouble In Preventing Fights Yesterday.

ONLY ONE ARREST WAS MADE

McCoy Insisted on Telling Officer Norris About the Duties of an Officer.

HE PUT UP GOOD SECURITY

The members of the police force who were on duty yesterday afternoon report having had more trouble in handling the Cadiz crowd than on any other occasion this season.

There were several hundred men and boys congregated in the Diamond and the uptown streets, and they were bent on trouble, it didn't matter much what the provocation was or whether there was provocation, the main desire was to get mixed up with some one, and it required the united efforts of the police to prevent serious trouble.

No less than a dozen attempts were made to start fights at different points, the Midway being the favorable stamping ground. One man was thrown bodily from Guthrie's saloon, alighting in the center of the alley. He was not badly hurt, and gathering himself up he made his way to the Diamond, where he caught a car for the Southside.

W. J. McCoy, one of the crowd, had a fair-sized skate on and was going to whip some one in the Midway, when Officer Morris came along and advised the fellow to catch a car and go back to the park. He refused and started in to tell the officer a few things about the duties of a policeman. Morris had already studied the rules and so was not much interested in the talk. He called the patrol and W. J. was taken to jail, where he was provided with quarters for the night.

Not long afterward he becam very homesick and negotiated with the authorities for his release. He gave security and was allowed to go, and in all probability is now in Cadiz.

Chief Thompson took Chongeye Carraher to Lisbon this morning, where he will do time in the county jail.

"Crip" Cain and his girl had just settled themselves on a garbage can in Dew Drop alley to enjoy a fresh growler of beer last night, when Officers Dawson and Gill came along and interrupted the feast.

Cain was arrested on a charge which was filed against him in Wellsville for assaulting a man named Foley there the other day.

He was taken to that place last night and Mayor Dennis disposed of his case today.

LANGLEY PROTESTS.

Says the 10 Per Cent Law Wasn't in Effect When He Contracted a Debt.

John Langley appeared in McCarron's court last evening for the second time to protest against the continuance of the attachment proceedings against him.

Langley was accompanied by his attorney and this time the objection was made on the ground that the debt was contracted before the new 10 per cent attachment law went into effect, and therefore the law would not apply to the case in question.

C. G. Anderson secured judgment in the court of Justice McCarron against Langley for $1 75 for merchandise on July 3, and attachment proceedings were instituted and an endeavor was made to attach the defendant's wages in the hands of the Vodrey Pottery company.

It was afterward learned that Langley wasn't in the employ of the Vodreys and the case was dismissed. An other action was brought a second time and papers issued in aid of execution against Thomas Wedgwood, for whom defendant was found to be working, and now Langley and his attorney are endeavoring to again stop proceedings.

Justice McCarron has taken the matter under consideration and will render a decision on Monday.

KNOWLES SUES.

WANTS THE CITY TO PAY HIM $1,200.

Says the Change of Grade on Avondale Street Damaged His Property to That Extent.

Lisbon, Aug. 24.—(Special.)—George Knowles has sued for a judgment against the city of East Liverpool in the sum of $1,200.

Mr. Knowles claims he has been damaged by reason of the change of the grade on Avondale street, which was done in 1899 by the city.

He owns three lots fronting on the street on which he has improved houses and he says the change of the grade, which was regularly established in 1891, has cut down the street in front of his property to a depth of 10 feet, rendering the ingress and egress to his lots both difficult and dangerous.

He says he has been compelled to erect a retaining wall and reconstruct all of his porches, and that even then the value of his property has been lessened. His claim he presented to the clerk of the city and payment was refused.

MODIFIED AN ORDER.

Administrator of the Estate of Cynthia Bradshaw Permitted to Retain $500.

Lisbon, Aug. 24.—(Special.)—In the estate of the late Cynthia Bradshaw, of East Liverpool, Judge Boone modified the order of distribution of the proceeds of the sale and authorized the administrator to retain $500 for the purpose of indemnifying him against any expense of litigation that may accrue in collecting certain claims. The administrator was ordered to distribute $7,956 25, and will now distribute $500 less.

HE WAS FOUND.

Thomas Shaw Confessed Judgment Last Evening in That Attachment Case.

The lost has been found. Constable Powell made the discovery last evening, and the papers in the attachment suit against Thomas Shaw for a board bill of $15 70 were served on the young man.

The defendant confessed judgment and the case will therefore not come to trial.

Sold a Horse.

Ed Larkins sold a fine driving horse to Beaver Falls parties yesterday. The horse took first prize at the Hookstown fair.

UNFORTUNATE MARRIAGES

One Thousand More Divorces Were Granted In Ohio This Year Than Last.

SECRETARY KINNEY'S FIGURES

Taken From the Reports of the Different Counties Make This Showing.

THE CAUSE IS GIVEN IN EACH

Secretary of State Kinney has received and tabulated reports from all the counties of the state upon divorce statistics.

The table shows 8,457 cases pending as compared with a total for the preceding year of 7,445, an increase of more than 1,000.

The number of divorces granted during the past year was 3,878, as compared with 3,217 for the preceding year, an increase of 661.

The summary for the past year is as follows:

Suits pending July 1, 1899, 5,219; number brought during the year ending June 30, 1900, 3,238; total number of suits, 8,457; divorces granted, 3,878; divorces refused and suits dismissed, 1,060; suits pending July 1, 1900, 3,280.

Under cause of adultery there were granted to the husband, 285; refused husband, 91; granted wife, 220; refused wife, 64.

Cause absence and neglect, husband, 595; refused husband, 195; granted wife, 1,439; refused wife, 235.

Cause cruelty, husband, 91; refused husband, 58; granted wife, 715; refused wife, 240.

Cause drunkenness, granted husband, 17; refused husband, 20; granted wife, 396; refused wife, 98.

Cause fraud, granted husband, 11; refused husband, 4; granted wife, 10; refused wife, 3.

All other causes, granted husband, 20; refused husband, 15; granted wife, 79; refused wife, 37.

Until the year 1892 the courts of common pleas only had power to grant decrees of divorce, but since that year the legislature has given the power to the probate judges of different counties, until at present the probate judges of Allen, Coshocton, Defiance, Fayette, Henry, Licking, Madison, Perry and Richland counties are authorized to grant divorces.

Married Last July.

The announcement has just been made of the marriage of Joseph Duke, a presser at the Goodwin pottery, and Miss Mame Reece, daughter of Mr. and Mrs. John Reece, of Lisbon street, which took place July 3 at Ripley, New York, the ceremony being performed by Rev. Hildren, pastor of the M. E. church at that place.

Mr. and Mrs. Duke are well known in this city. They have gone to housekeeping on May street.

Funeral This Morning.

The funeral of the 17-year-old daughter of Mr. and Mrs. George Beaver, who died yesterday morning, took place this morning at 10 o'clock. Interment was made in Spring Grove cemetery.

TO SAVE THE CONSTITUTION

A Massachusetts Society Has Taken Steps to Preserve the Famous Old Ship.

WRITES TO MAYOR DAVIDSON

And Wants the People of East Liverpool to Donate to the Cause.

LETTER GIVEN IN FULL

Mayor Davidson yesterday received the following, which will doubtless be of interest to a great many people in this city:

Boston, July 30, 1900.

His Honor, the Mayor, East Liverpool, Ohio.

Dear Sir—I have the honor to present to your notice and to ask your favorable consideration for the work which the Massachusetts State society, United States Daughters of the War of 1812, has undertaken, to raise the fund for the rehabilitation of the famous old U. S. frigate Constitution.

A brief statement of how this matter has been brought about may be of interest to you. For many years this famous old frigate, so dear to the hearts of the American people, had been lying at the Portsmouth navy yard, gradually going to decay.

At a patriotic meeting in Faneuil hall, Boston, on February 22, 1897, Mrs. Nelson V. Titus, the president of the Massachusetts State society, United States Daughters of 1812, offered a resolution that the old ship should be brought to Boston to celebrate the 100th anniversary of her birth. The petition was presented to the secretary of the navy, who ordered the ship brought to Boston, and the celebration on October 21, 1897, awakened much interest for her preservation. The president of the society then presented a petition to congress, urging that an appropriation should be made to rebuild this famous man-of-war. This was duly presented to congress by Hon. Henry Cabot Lodge, and was referred to the committee on appropriations, who voted it "inexpedient." The matter then rested a year. The society was not disheartened, however, and with the cordial cooperation of the secretary of the navy, the necessary authority to rebuild the ship has now been obtained from congress, as shown by the following:

On December 4, 1899, the following recommendation was sent to the committee on naval affairs, House of Representatives, by the Hon. John D. Long, secretary of the navy:

"Navy Department,

"Washington, D. C., Dec. 4, 1899.

Sir—The Massachusetts State society, United States Daughters of 1812, has informed the department that it desires to restore the old frigate Constitution to a serviceable condition, in order that she may be again placed in commission and used as a training ship, or in such manner as may be deemed best by the secretary of the navy, the cost of such restoration to be defrayed by popular subscription, and the work to be done at the navy yard, Boston, Mass., and carried on and completed to the satisfaction of the department. The society has also, in pursuance of this object, requested the department to recommend the passage of an act by the congress granting the necessary authority in the premises. The Constitution as she exists today is a relic of the glory of the navy in its early days, and the fact that the memory of her prowess is still cherished among the people is a gratifying evidence of patriotism that should be encouraged. The restoration of this old man-of war for the government by voluntary contribution from the people, under the auspices of this society, would be an object lesson of great value to the nation.

"I have the honor, therefore, considering also the serviceability to the navy of the ship should she be restored, to recommend the early passage of an act authorizing her rehabilitation in the manner proposed, providing, however, that the work shall be done under the supervision of and as directed by the department.

"Very respectfully,

"JOHN D. LONG,

"Secretary.

"To the Chairman of the Committee on Naval Affairs, United States Senate."

In the house of representatives on February 8, 1900, the committee on naval affairs reported as follows, the report being read by Mr. Butler, of Pennsylvania:

"The committee on naval affairs, to whom was referred the bill (H. R. 3718) to authorize the secretary of the navy to place the frigate Constitution in the same condition as regards her hull and rigging as she was when in activeservice beg leave to submit the following report:

"The frigate Constitution, better known as 'Old Ironsides,' is now moored to the wharf at the Boston navy yard, where she has been since her removal from Portsmouth, N. H., in 1897. Her hull is protected from the weather by a roof, but dry rot has attacked her once staunch timbers and they are fast going to decay. The achievements of Old Ironsides during the war of 1812, filling as they do so proud and glorious a page of American history, have endeared this grand old ship to our people and enshrined her in the affections of a loyal and patriotic nation. The Massachusetts State society, United States Daughters of 1812, solicit the privilege of furnishing a sufficient sum of money to defray the entire cost of placing the Constitution in the same condition as regards her hull and rigging as she was when in active service. It is more than a work of patriotism with these ladies—it is a labor of love and reverence, and they feel that they have a legitimate claim to the honor of carrying it out, because many of them are direct descendants of the men who helped build the ship, fought upon her decks ,and commanded her when she gained her epoch-making victories. The government will be at no expense whatever under the plan proposed for the restoration and preservation of this famous vessel; the patriotic impulses of our people will be stimulated, and a striking and curious object lesson of the development and growth of the nation will be handed down to future generations in the form of the, to us, quaint old battleship which first made our nation famous on the seas. The secretary of the navy, having urged the speedy consideration and passage of this bill, and in view of the above facts, and the further fact that the Massachusetts State society, United States Daughters of 1812, in raising the funds to defray the expense of such refitting of the Constitution, will present to the public an object lesson in patriotic devotion of great value, your committee recommend that the said bill do pass."

Accordingly, the following bill was passed by both houses of congress and approved by President McKinley on February 14, 1900:

"An Act for the Preservation of the Frigate Constitution.

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that the secretary of the navy is hereby authorized to place the frigate Constitution, now lying at the Boston navy yard, as near as may be consistent with her preservation, in the same condition as regards her hull and rigging as she was when in active service; provided, that before beginning on such work a sufficient sum of money to complete such work shall be raised through the agency of the Massachusetts State society, United States Daughters of 1812, and placed at his disposal for the purpose.

"Approved February 14, 1900."

Having now received the necessary permission from congress to raise the fund for the rebuilding of the ship, this society desires to ask the cordial cooperation of every state in the union to unite in raising the money needed to rebuild this historic man-of-war. According to the estimate submitted to the society by the bureau of construction and repair at Washington, the amount will be $400,000.

While this at first seems a large sum, it is not so much when divided among the different states of the union. The preservation of this famous vessel is a matter of national interest, and the purpose of this letter is to ask your honor to present this matter at once to the proper authorities in your city, and if you should think it desirable, to suggest to your leading newspaper that a popular subscription fund should be started. The society would be glad to be advised if we may look for your cooperation in this patriotic work. This matter has been already presented to the governor of your state, asking him to present it to the state board of education. It has been suggested that October 21 next be made "Constitution day" in every public school throughout the land, when every child may contribute something for the rebuilding of the ship. Messrs. Kiddor, Peabody & Co., bankers, Boston, have consented to act as treasurers of the fund. I feel sure we may count on the aid of the people of your city in this great and patriotic work to preserve and hand down to posterity this famous old ship, whose guns in the war of 1812, in the space of 15 minutes' time, raised the United States from a second-class to a first-class power and established the independence of the United States forever.

Hoping that this patriotic work will receive your favorable consideration, and that we may have a liberal contribution from your city, which will be duly acknowledged in the press.

Very respectfully yours,

MRS. NELSON V, TITUS,

President Massachusetts State Society, United States Daughters of 1812.

HOOKSTOWN FAIR IS OVER

Fully 8,000 People Attended the Fair This Year Which Was Larger and Better

THAN IN PREVIOUS YEARS

The Fair Is a Great Event and Hancock and Beaver County People Always Attend.

THE RACING WAS GOOD

The Hookstown fair for 1900 closed last evening, and the total attendance for the three days was estimated at 8,000 people.

Seventeen years ago the Mill Creek Valley Fair association was organized and held their first fair, which was principally a stock exhibition. The affair proved a success from the very start, and it was not long until a race track was built, and now the association has the best third-mile track in the state of Pennsylvania.

If you want to be in the push in Beaver and Hancock counties you must go to the Hookstown fair. The fair partakes of the nature of a gigantic picnic and every year the country people for miles around gather to greet their friends and renew old acquaintanceships. People from Beaver go by the hundreds and East Liverpool citizens are not far behind.

There is the merry-go-round, floral hall, cane games, exhibits. The lemonade man is seen on every side, while the racing is an important feature. It is the ideal country fair and will always be a success as long as the old fashioned idea holds sway.

Pesterday 6,000 people entered the gates and every available hitching place in the fair ground, and on the roads for at least a mile was taken. Still there was room for everybody within the grounds and it is seldom a more happy crowd is seen. Everybody was enjoying themselves.

The fair this year was the best in the history of the association. The attendance was larger, the exhibits finer and the racing better than ever before.

The country fair may be dropping out of sight, but the Hookstown fair will always be held and the event for which the Beaver and Hancock county people count on each year will come off as usual.

The association next year will endeavor to make the fair still more of a success.

TALKING MACHINE.

She Resides on College Street—Talks by Note, Talks by Air—Boozes Boldly.

She's a talker from Tattletown. Report has it that she talked her mother-in-law to death and cross-questioned a book agent so persistently and pertinaciously that he fell over in a dead faint on the steps of her front doorway. The census taker attempted to interview her a short time since, and met with such a reception that he threatened to throw up his job rather than tackle her again. The talking machine is fond of booze, and she occasionally indulges in a regular spree, much to the annoyance of her hubbie, who desires to do all the boozing of the household. The lord and master of the domicile attempted to call his partner to account the other night, after she had put herself outside of about half a pint of Jersey lightning, when she gave him such an awful tongue lashing that he was afraid to go into his home, and secured a room at the hotel that night. The machine has since openly boasted that she rules the roost and that her hubbie don't dare to say "boo" to her. The neighbors enjoy the fun and are anxiously looking for a repetition of the seance. An eye witness to one of her sprees says that on one occasion she caught her hubbie by either shoulder, lifted him from the ground bodily and shook him as a terrier does a rodent—shook him until his teeth rattled like castanets.

CADIZ WON.

The Local Ball Players Lost the Game Yesterday By Only One Run.

The ball game yesterday between the Cadiz and Liverpool clubs at Rock Springs was won by Cadiz by a score of 6 to 5.

The game was one of the speediest ever played on local grounds, and the local players only made one error; Barker, who was playing short, fell down on a hard chance.

The Cadiz team was composed principally of minor leaguers, the catcher, left fielder and first baseman coming from the Indiana state league, while the pitcher is an ex-Fort Wayne man. In addition to this they had two Scio players.

Doc Howard umpired the game and he did it well, but Cadiz kicked on everything and wanted to fight at the drop of the bat. Three or four times it looked as though the game would end in a row, but things calmed down and the contest went on.

The batteries were Vastbinder and Edwards; Chambers and Gibson.

FIND THE LEADERS.

It should not be a difficult task to find the leaders who led the Akron mob. Once found, hot punishment should follow.

GATLING GUNS.

Ben Butler said, at the time of the New York city riots, that the "proper thing to use in persuading a mob was a gatling gun, distributing its arguments where they would do the most good." And Ben was right.

WHO KILLED THE CHILDREN?

Who killed the children murdered in Akron, Ohio, the other day? Mob law did the cruel deed. The cruel, senseless, murderous mob acted like brutes and unlike human beings. And all this in our fair state of Ohio.

WHO WILL SETTLE?

Who will pay the bill for the looting of property in Akron? The taxpayers of the county, of course. The story of the riots in Pittsburg is still fresh in the minds of the people of the nation. Allegheny county paid millions for her failure to enforce law and order.

AN INFAMOUS DEED.

If Peck, the negro, perpetrated the infamous crime, with which he is charged, no punishment could be too hot for such a devil in human guise; but the unreasoning mob did not murder or hang or torture Peck. They murdered innocent victims, dynamited and looted property and acted as do hoodlums and anarchists.

KILL OR BE KILLED.

Kill the liquor traffic in this great nation, or it will kill the nation. Statistics, undeniable facts and figures, will prove the truth of this assertion. It will require an overwhelming wave of right and reformation to wipe out the curse—this disgrace to our great republic. Under God's blessing, however, the work can be accomplished. Are you willing to help?

ACCURSED DRINK.

Read the press reports of the awful shame to Ohio in the streets of Akron:

"To the free flowing of liquor is ascribed the frenzy which culminated in the destruction of over $250,000 in property, the loss of one life and the wounding of a score or more people who sought only to preserve peace or were mere spectators of the awful affair."

The accursed strong drink. When will this nation fully arouse itself and recognize the enormity of the sin of the licensed liquor traffic?

BRYAN'S BLUNDERS.

William Jennings Bryan declares that, in case he is elected president, he will grant the Filipinos their independence and guard them against molestation on the part of other nations. This would mean the withdrawal of our army from the Philippine islands; and, further, would compel the United States government to maintain in Philippine waters an immense fleet or navy, sufficient to deter and prevent Germany, France, Great Britain, Japan, Russia and all other nations from interfering with the Filipinos or the Philippines. Peculiar retrenchment, to say the least, and not much of a guarantee for the preservation of peace. International complications would ensue, and troubles and expense untold would be forced upon this nation. Bryan says:

"For three-quarters of a century the Monroe doctrine has been a shield to neighboring republics, and yet it has imposed no pecuniary burden upon us."

The republics designated are on the same hemisphere with us. The other nations are across the ocean. Bryan proposes that we shall cross the ocean to the hemisphere where the other nations are at home, and where we have no footing whatever after the recognition of the Philippine independence; that we shall undertake to uphold a republic there against all neighboring nations. And to put this revolutionary policy in play the earlier, Bryan would call an extraordinary session of congress next March. Can the thoughtful citizen measure the disturbing influence of congress in session to proclaim such a world policy as Bryan pledges himself to inaugurate? Agitation, disorder and a disturbance of conditions generally might be expected, and the shadow of this contemplated session of congress would overcast American prosperity on the very day following the show of enough electoral votes to make Bryan president. Bryan's blunders would extend the Monroe doctrine to the continent of Asia. Bryan's blunders would ruin this nation.

CHEERFUL GIVERS.

Thank God That We Have Very Many of This Class in East Liverpool.

The writer needed $7 this morning, in order to meet a demand made by two charitable ladies of this city, ladies who have a very sad case on their hands. We called on seven different business men, and not one of the number refused our plea for a cart wheel, each man visited giving gladly, one member of council saying:

"In any cases of emergency like unto this, don't fail to call on me."

One gentleman had started for the News Review office to hand in a dollar for the India famine fund. Taking our advice, he diverted his dollar to the emergency case at home. When we reported back to the office with the seven dollars needed, we discovered that a lady had called in and contributed one dollar to the home case, and so the dollar contributed by the gentleman designated went into the India famine fund and was sent off this afternoon.

Seated at the office door a few minutes later, reading proof, an old soldier, gallant and true, loving and kind, pushed open the screen door, dropped a five-dollar bill in the writer's hand and said:

"For the famine fund."

God bless and prosper him; and bless and prosper every one of the above designated cheerful givers. Don't you want a share of the Master's blessings, oh ye many cheerful givers of East Liverpool?

Interesting Statistics.

The following statistics will be of interest to people who think the world is growing better:

In 1850 one person out of every 3,542 was in prison; in 1899 one out of every 855, and in 1890 one out of every 757, and the crimes represent homicide, theft, counterfeiting almost entirely.

In 1894 there were 7,749 homicides; in 1895, 8,000; in 1896, 10,000; in 1899, about 12,000.

From 1893 to 1898 there were 742 suicides and 150 murders in San Francisco. It is estimated that there are over 25,000 suicides in this nation annually.

Prostitution has increased 50 per cent per capita during the past ten years. It is estimated that there are at present over 600,000 in the United States.

Three thousand babies are abandoned by their mothers in New York City annually.

Rum shops increase at a fearful rate, there being in 1886, 161,483 separate places and 433,274 persons empliyed. Nearly all of these saloons are the recruiting shops for political corruption, which increases with each election.

In 1850 we consumed 1,000,000 kegs of beer. In 1890, with a population only two and one-half times greater, we consumed 37,000,000 barrels. In 1889 we consumed 506,076,400 gallons of liquors and wines. Seven years later we had increased the consumption to 1,189,379,448 gallons.

Deaths from alcoholism have increased 15 per cent in the past 25 years.—Exchange.

Into a Broken Wire Fence.

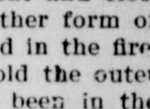

About 9 o'clock Wednesday night while running a foot race on the track at Hookstown, Vallie Waggle ran into a barbed wire fence, cutting his left leg and face severely. Several stitches were necessary to close an ulgy gash on the cheek.

Counterfeits.

An English expert declares that he knows of at least 600 counterfeits of the old masters which are now hanging in the private galleries of the United States, and all of which were originally purchased in Europe at very high prices.

A LIVE COAL TRICK.

Teaches Natural Law, Yet Has All the Appearance of Magic.

No one would suppose that it is possible to hold a glowing coal on a piece of linen or cotton without burning the cloth, but that such can be done is easy for any one to prove, and at the same time the experiment teaches an important natural law. Every child knows that the telephone and telegraph wires are made of copper because that metal is a good conductor of heat and electricity, which is only another form of heat. If a poker is heated in the fire, you pick up a cloth to hold the outer end, although it has not been in the fire, because experience has taught you that the heat is connected through the metal from the fire to the outer end.

This experiment with the flaming coal is based upon this principle and the additional one that linen and cotton are poor conductors of heat. Take a globe of copper and draw a piece of cloth tightly over it so that there is not a wrinkle at the top. If the linen or cotton is closely woven, the trick is all the more certain. Then, holding the cloth tightly in place, you can safely put a glowing coal on top of the cloth, and, while it burns fiercely, the cloth will not even be scorched.

The reason is that the great conductivity of the copper draws the heat of the coal before it can burn the cloth. Do not try this experiment with a good handkerchief first, for if the cloth is not tightly drawn it may burn, but take some worthless piece of linen or muslin, and after you are certain of your experience you can astonish your friends who do not know the secret.—Washington Post.

There was a scene of desolation and evidences of violence and lawlessness unparalleled in the history of the city as a result of the fearful riot here. One child was lying cold in death and nearly a score of people were suffering from the wounds of pistol balls, buckshot and missiles.

The city building was a heap of smoldering ruins and beside it steamed the water-soaked ashes of Columbia hall.

The police force of the city was disorganized and scattered, the chief fleeing in desperation from the bloodshed, riot and burning, crazed by what his men had done.

Electric wires, deadly to the touch, lay across the streets in the vicinity of the burned buildings and debris of all kinds was scattered far and near. The downtown streets were just as the mob left them, and although nothing was being done by the rioters, crowds of spectators, hundreds in number, hung around "waiting for something to turn up."

The crowds began to increase as the curious spectators hurried to the scene of the trouble. A policeman appeared and then another, timid at first, but with increasing assurance, as no violence was offered. Then Company C, of Canton, a detachment of the gallant Eighth Ohio regimen, marched down the street from the train, and, halting before the ruins of the building, at once set to patroling the fire lines.

There was no evidence of ill-will or disquiet on the part of the crowds at the lines. There was no talk of violence. The turbulent element had slunk away and order was once more fully restored. As the troops marched up the main thoroughfare after their arrival in the city hisses and groans were heard. The lawless element which had figured so prominently in the rioting was still in evidence, although no open resistance to the troops was shown. On the advice of friends, Mayor Young sought his office by back streets and alleyways, as it was feared that his presence so early after the rioting would cause a fresh outbreak.

Later nine companies of the Fourth regiment arrived in the city and marched to the scene of the rioting. A short time after Mayor W. E. Young issued a proclamation closing every saloon in Akron until further orders. If the situation demands more drastic measures the mayor states that the city will be put under martial law. Wild rumors were current that mobs were being formed to go to Cleveland to lynch Peck, but there were no grounds for the rumor.

In the Akron riot the innocent ones were those to suffer, while the guilty ones were practically uninjured. One killed, one fatally injured and 20 persons more or less injured is the result of the mob's work. Glen Wade was shot and almost instanly killed. He was in the mob and a bullet from the revolver of a policeman in the city hall found the boy's warm and throbbing heart. The lad was only 11 years of age. Another innocent who will die is Rhoda Davidson, the 7-year-old daughter of Mr. and Mrs. J. M. Davidson, of 111 Ally street. Sitting in a carriage with her mother and father, on the outskirts of the mob, the deadly bullet from the hands of a police officer hummed harmlessly over the rioting throng and found lodgment in the skull of the child. No hope is held out for her recovery.

The resistance shown by the police officers and city officials in the city hall only served to lash the mob into greater frenzy. Failing in its effort to force an entrance into the city hall, a portion of the mob ran to the store of the Standard Hardware company, on Main street, about one and a half blocks from the scene of the rioting. In a twinkling a large plate glass window in the front of the store was smashed to atoms, and the mob ran into and looted the store. Revolvers, rifles, shotguns, razors and thousands of rounds of ammunition were also taken, and with these weapons the mob returned to the city hall. Standing in the front windows of the city hall, Mayor Young, Chief of Police Harrison and other police officials were haranguing the mob, endeavoring to convince the rioters that Louis Peck, the colored man, charged with assaulting little 4-year-old Christine Maas, had been quietly removed from the jail during the afternoon and taken to Cleveland for safekeeping.

The remarks of the mayor only increased the anger of the mob. In his first attempt to quiet the mob he said that the prisoner had been taken out of the city about 4 o'clock. In another speech he gave 6 o'clock as the time of the prisoner's departure, and in speaking again he said 8 o'clock. They believed from the mayor's contradictory statements that he was not telling the truth and that the prisoner was still in the city jail, notwithstanding the fact that two different committees had searched the building from cellar to roof without finding any trace of the prisoner. John A. Wintrode, one of the committeemen, who made the search, stood on the roof of the building and told the mob that Peck was not to be found. The rioters refused to be satisfied, and with the cry, "To the courthouse," "To the county jail," they started up the hill to High street and across the commons to the courthouse and jail.

First they attacked the jail and were met by Deputy Sheriff Stone. On his request a committee was hurriedly appointed and every nook and corner of the jail was searched. "To the courthouse," the cry was again taken up, and a dash was made for the courthouse across the street. Doors were battered in, and the rioters surged through the different halls and rooms, but without result. A dash was then made for the treasurer's office, but the heavy iron doors checked the mob. Leaving the courthouse the mob returned to the vicinity of the city hall. "Burn them out!" was the cry from several people, and the echo of the cry was an affirmative roar from the entire mob. Adjoining the city hall, which was constructed almost entirely of brick, was an immense building, which for many years past was the principal public hall of Akron. This building—a veritable tinder-box—caught the eye of the mob as a likely place to set afire in the hope that the flames would soon spread to the city buildings. No sooner thought of than it was done. The large frame building was presently a mass of flames. The various fire companies responded to the alarm, but the mob refused to permit them to work. Several cowardly shots were fired at the brave firemen, and L. Manchester was the first to receive an injury. The lines of hose were cut and slashed until there was not a single stream of water playing on the devouring flames. Columbia hall was soon a ruin, but the city hall was yet standing. While the adjoining hall was burning the inmates of the city hall escaped through a back doorway. Resistance withdrawn, the mob made a rush for the hall. Flaming embers were thrown into the different rooms and the building was soon burning. Some of the more thoughtful ones in the mob liberated the prisoners from the hall below.

A stick of dynamite was thrown into the front of the burning buildings. A terrific crash followed and portions of the wall crumbled away. Another charge was exploded, and the work of devastation was completed.
tion was completed.

While this work was in progress members of the mob, having a peculiar sense of honor, pulled the automobile wagon from the station. One rioter, with a large knife in his hand, occupied the operator's seat, and amid the cheers of thousands, the wagon was run up and down the street, bumping into telegraph poles and curbstones and finally running down a steep incline into the canal. It was rescued in the morning and taken to a place of safety. The automobile, of which Akron was so proud, is a hopeless wreck. The physicians of the city were on the qui vive while the rioting was in progress.

Negro Assaults a Child.

Pittsburg, Aug. 24.—Robert Harris, of the Southside, Pittsburg, Pa., was locked up in the Allegheny county jail in default of $1,000 bail on charge of criminal assault upon Millie Roberts, aged 11 years, of Homestead. A lynching was feared for a time at Homestead.

HAY RIDE.

The Boys Anticipate a Jolly Good Time in the Truly Rural Districts.

The members of the National club have arranged for a hay ride tonight, contemplating visiting the residence of farmer Moore, distant some seven miles from East Liverpool. A number of fair damsels have been invited to participate, and they hesitated not a single moment in accepting.

Still a Tie.

The Steubenville board of education as yet has come to no agreement in the matter of selecting a superintendent. At the last meeting it was decided to take five ballots, which was done. Each vote resulted in a tie, six for Superintendent Mertz and six for a change.

As the school year must of necessity soon open it will be necessary for the matter to be decided shortly. The board meets again Monday evening of next week.

WAR RUSSIA'S POLICY

Commander Disregards Chaffee's Advice.

CHIPPED ENOUGH, SAID AMERICAN

The United States Commander Opposed the Capture of the Imperial Palace, as Did Others of the Commanders. Great Fire Raged.

London, Aug. 24.—Fires, fighting and dissension apparently followed in the wake of the relief of Peking. The Daily Mail published dispatches from the Chinese capital, dated as late as Aug. 17, declaring that a great fire was then raging in the imperial city. The Russian commander had declined to accept the decision of the other generals not to violate the imperial precincts and street fighting was going on.

General Chaffee, so it was asserted, maintained that the Chinese had been adequately punished already, and that it would be unwise to take the imperial palace. This explains the withdrawal of the Americans after breaching three gates, as cabled by the special correspondent of the Associated Press. The Russian general, however, maintained that his government had declared war against China, and that, therefore, there was no reason to prevent him carrying hostilities into the sacred precincts.

HOW CAPT. REILLY FELL.

Americans Were Breaching the Wall When a Bullet Struck the Officer in the Mouth.

Peking, Aug. 15, via Che Foo, Aug. 23.—The Americans breached three gates before the imperial palace and occupied the approaches to the last wall.

Captain Henry Reilly Battery F, Fifth United States artillery, and five privates were killed and 16 were wounded. During the afternoon the Americans returned to camp, pending a conference between the generals. Thereupon the Russians occupied the approaches to the palace. Captain Reilly was standing on the wall and directing his battery when a bullet struck him in the mouth, killing him instantly. The battery hammered at the gates until they fell. In the meantime the infantry cleared the street and walls, where the Chinese soldiers, with a fine cover, stubbornly resisted. The fighting was close and sharp. A French battery, while shelling the approaches to the palace, narrowly missed the Americans. General Chaffee and Mr. Conger are conferring regarding the diplomatic features of the situation.

THE COPRESPONDENCE WITH LI.

Text of Proposal and Refusal to Negotiate Now.

Washington, Aug. 24.—The state department made public the following correspondence relating to the Chinise proposition for a cessation of hostilities and the reply of the United States:

Chinese Correspondence, Aug. 20-22, 1900.

Handed to Mr. Adee, by Mr. Wu, Aug. 20, 1900, 10:15 a. m. Cablegram dated Aug. 19, from Viceroy Li Hung Chang, was transmitted by the Chinese minister to London and received by Minister Wu on the night of the same day:

"It was the declaration of all the ministers for foreign affairs of the great powers that the expedition of the allied troops was solely for the rescue of the ministers in Peking. Now, the allied troops having entered Peking and found all the ministers safe, it seems proper that hostilities should at once cease and that negotiations should commence, I therefore request the United States government to appoint an envoy with full powers or appoint the minister now in Peking for the purpose, as he is necessarily acquainted with the affairs between Chinese and the foreigners, and to inform me if the conference will take place in Peking. After receipt of a definite reply, I will at once proceed to the north. Please request the secretary of state to lay the matter before his excellency, the president. Await reply.

Received at the department of state, Aug. 21, 1900, 3:17 p. m. Cablegram from Viceroy Li Hung Chang, dated Aug. 21, 1900, and received by Minister Wu on the same day:

"The Boxer rebels in Peking having been dispersed, there will be positively no more fighting. Further military operations on the part of the powers are greatly to be deplored. Besides urging cessation of hostilities, please confer with secretary of state upon subject of withdrawal of troops and appointment of plenipotentiary to negotiate settlement of all other questions so as to preserve amicable relations. I await early reply."

Sent to the Chinese minister, Aug. 22, 1900, 1:30 p. m. Memorandum in response to Chinese minister's communication of cablegrams from Viceroy Earl Li Hung Chang, dated Aug. 19 and 21, 1900, proposing the immediate cessation of hostilities and the appointment of an envoy to conduct negotiations, received at the department of state Aug. 20 and 21, 1900:

"While the condition set forth in the memorandum delivered to the Chinese minister Aug. 12 has not been fulfilled, and the powers have been compelled to rescue their ministers by force of arms, unaided by the Chinese government, still this government is ready to welcome any overtures for a truce and invites the other powers to join when security is established in the Chinese capital and the Chinese government shows its ability and willingness to make on its part an effective suspension of hostilities there and elsewhere in China.

"When this is done—and we hope it will be done promptly—the United States will be prepared to appoint a representative to join with the representatives of other similarly interested powers and of the authoritative and responsible government of the Chinese empire to attain the ends declared in our circular to the powers of July 3, 1900.

Alvey A. Adee,
"Aacting Secretary."

NO MORE TROOPS TO CHINA.

Government Decided to Direct Soldiers to Manila.

Washington, Aug. 24.—The government decided not to send any more troops to China. All the troops now at sea, amounting to about 4,000, together with those under orders for service in the far east, which have not sailed, amounting to about 3,000 more, will be sent to Manila. These troops will sail on the same route, and upon touching at Nagasaki will go on to Manila, unless there are developments in China, not now expected, which would make their presence necessary in that country.

Potatoes.

Potatoes as a food vary in value according to the way they are cooked. Roasted they are in the best form for eating. Peasants eat potatoes together with milk and are correct in principle, as the milk furnishes the elements lacking in the tubers.

WEATHER FORECAST.

Western Pennsylvania: Showers and thunderstorms in western, fair in eastern portions today; tomorrow showers; fresh southerly winds.

Ohio and West Virginia: Local rains and thunderstorms today and tomorrow; fresh northeasterly winds.

OHIO IN CONGRESS FROM 1803 TO 1901.

FRANK H. HURD.

Frank H. Hurd, lawyer, political economist and Democratic leader, was born in Mt. Vernon, Ohio, Dec. 25, 1841, and died in Toledo in July, 1896. He began his education in the public schools and graduated from Kenyon college in 1858. He then took up the study of law and was admitted to the practice in 1861, and was elected prosecuting attorney of Knox county in 1863.

In 1865 he was elected to the senate of the Fifty-seventh general assembly from the Seventeenth-Twenty-eight joint senatorial district, Knox and Morrow, and Wayne and Holmes counties. In 1868 he was appointed as a member of the commission to codify the criminal laws of the state. About that year he removed to Toledo, where he became one of the most prominent lawyers in that city.

In 1874 he was elected to the Forty-fourth congress from the Sixth district, Lucas, Ottawa, Williams, Fulton, Henry and Wood counties. In 1876 he was defeated by Jacob Dolson Cox in the same district. He was placed in the Seventh district under the apportionment of 1876, Lucas, Hancock, Ottawa, Sandusky and Wood, and was elected to the Forty-sixth congress.

In 1882 he was elected to the Forty-eighth congress from the Tenth district, Lucas, Erie, Sandusky and Ottawa, and in 1884 received the certificate of election to the Forty-ninth from the same district, but was unseated in favor of Jacob Romeis, who contested his election. Mr. Hurd was not only a tariff reformer, but the advocate of absolute free trade, being far in advance of the most advanced lines of his party on this question.

EARLY F. POPPLETON.

Early F. Poppleton of Delaware was born in 1834, in Richland county, and was prominent in the practice of his profession in the city where he held a high professional rank from the date of his admission to the bar in 1856 until his death, May 6, 1899. A Democrat and a man of ability, and often intrusted with positions of responsibility, he has never been a politician in the officeseeking sense of the term.

He was a member of the senate of the Fifty-ninth general assembly in 1870-1872, and served one term in congress, having been elected to the Forty-fourth in 1874 from the Ninth district, Delaware, Hardin, Marion, Union, Morrow and Knox. The district was Republican, and Mr. Poppleton failed of a re-election.

JOHN L. VANCE.

Colonel John Luther Vance of Gallipolis, a Democratic editor and leader and a most gallant soldier, still resides in that city, where for more than 30 years he has been a leading citizen and a promoter of every public and municipal interest, especially the slack-water improvement of the Ohio river, of which he was the pioneer and is still the champion.

Colonel Vance has always resided in an overwhelmingly Republican district, and has always been an uncompromising Democrat, and, as the editor of the Gallipolis Bulletin, fought his political opponents an unending battle, yet so highly is he esteemed for his personal qualities and public enterprise, that in 1874 he was able to overcome an adverse majority of several thousand, and was elected to the Forty-fourth congress from the Eleventh district, composed of Gallia, Lawrence, Scioto, Jackson, Vinton and Hocking counties. During his term in congress he raised the question of the systematic improvement of the Ohio river, so as to make it navigable during the open season, and he still advocates it, with a fair prospect of ultimate success.

Colonel Vance was born in Gallipolis, Ohio, July 19, 1839, and educated in the public schools. He enlisted in the military service in April, 1861, and served under the first three months' call as a staff officer, with the rank of captain. He then assisted in recruiting the Fourth Virginia Infantry and was commissioned captain, and was promoted through the intervening grades to colonel, and was repeatedly assigned as brigade commander. He served through the West Virginia campaigns; in Tennessee; at Vicksburg, Jackson, Missionary Ridge and in the Valley of Virginia. He participated in 47 battles and skirmishes, and was wounded in six different actions, severely at Vicksburg and Berryville.

After being mustered out of the service he read law and was admitted to the bar, and became one of the most prominent members of his profession in southern Ohio and West Virginia. He was quartermaster general of Ohio under Governor James E. Campbell.

ANSEL T. WALLING.

Ansel T. Walling of Circleville, Pickaway county, was born in Otsego, New York, Jan. 10, 1824, and died at Circleville at the age of 60. At the age of nine years he was carried to Pennsylvania, where he received a good education, and afterward learned the printers' trade. He came to Ohio in 1843, and founded the Mahoning Index, a Democratic paper, at Youngstown. Later he became editor of the Coshocton Democrat.

In 1851-1852 he was assistant clerk of the Ohio house of representatives, and in 1852 was admitted to the bar. From 1855 to 1859 he was editor of the Keokuk (Iowa) Daily Times, a Democratic newspaper. In 1861 he returned to Ohio and began the practice of law at Circleville, and built up a good practice.

In 1865 he was elected to the senate of the Fifty-seventh general assembly from the Tenth district, Pickaway and Franklin, and was president pro tempore of the body. In 1867 he represented Pickaway county in the house of the Fifty-eighth general assembly. He was elected to the Forty-fourth congress in 1874 from the Twelfth district, Pickaway, Franklin, Fairfield and Perry counties. His record in the legislature and in congress was good.

JACOB P COWEN.

Jacob P. Cowen of Ashland represented that county in the house of the Fifty-third general assembly as a Democrat. In 1874 he was elected to the Forty-fourth congress from the Fourteenth district, comprising Ashland, Holmes, Richland, Crawford and Wyandot, and served a single term. He was a physician and merchant, and was born in Florence, Pa., March 20, 1823.

HENRY B. PAYNE.

Henry B. Payne of Cleveland was elected to the Forty-fourth congress in 1874 from the Twentieth district, composed of Cuyahoga county. He was defeated two years later by Amos Townsend. An extended sketch of Mr. Payne will be found in the list of United States senators.

ODELL WILL ACCEPT.

Declared He Would Do Whatever the the Committee Wanted—Swayne and Strong For Him.

New York, Aug. 24.—Chairman Odell of the Republican state committee, was asked if he had told Senator Platt Wednesday night that he would accept the nomination for governor of New York.

He said he was in Newburg that night, but the statement might have been made some other time. "I won't deny it," said he. "I will not run away from anything the convention wants me to do, or decline any honors it wishes to confer upon me. But I will still remain chairman of the Republican state committee, and work my hardest for the election of McKinley and Roosevelt."

Two promineat independent Republicans declared their acceptance of State Chairman Odell as a candidate for governor. One was ex-Mayor Strong and the other was Hon. Wager Swayne.

DISTRESS APPALLING.

Consul Fee Says Thousands Will Die of Starvation In India Unless Relieved.

New York, Aug. 23.—The committee of one hundred on India famine relief received a cable from William T. Fee, United States consul at Bombay, chairman of the Americo-Indian relief committee, which reads:

"Famine distress appalling. Thousands will die of starvation unless rescued. Money is needed to buy both food and blankets. The suffering from lack of clothing is terrible. Chelera still active. The condition of destitute women and deserted children specially pititable. Many boys and girls are in heartrending need."

CUBAN TEACHERS ENTERTAINED.

Guests of Philadelphia—Given an Official Reception.

Philadelphia, Aug. 24.—The transports Sedgwick, Crook, Rawlins and McPherson, with the Cuban teachers, numbering over 1,000 who are visiting this country, reached this city. The ships were anchored off the Chestnut street wharf, and later the teachers debarked and began their sightseeing tour. The members of the general committee and the city officials met the party down the river, where an official welcome was extended. As the teachers stepped from the boats to the pier they found awaiting them a delegation of Spanish-speaking guides, and the entire party proceeded in street cars, automobiles and on foot to Independence hall, where a welcome was extended by Mayor Ashbridge.

Professor Edward Brooks, superintendent of public schools, made a brief address, and was followed by Dr. Edward Pornias, who addressed the delegation in Spanish. The orator of the occasion was United States Senator Boise Penrose. The teachers were then further entertained.

President Not to Go to Chicago.

Washington, Aug. 24.—The president determined that the public business is of such a pressing and important character that he cannot start for Chicago this evening to attend the annual encampment of the Grand Army. He may find later that he can go on Monday or Tuesday, but, according to the statements of his advisers, the chances for a change of determination are few and small.

A man who finds no satisfaction in himself seeks for it in vain elsewhere.
